# REPORT.

---

YOUR Committee for 1859-60, in concluding their labors for the year, would respectfully submit to their constituents and fellow-citizens the following Report : —

The system adopted last year, in the purchase and distribution of School Books for the use of the town, has been found to be practicable ; and, although attended with additional labor, it has operated well, and answered the purpose had in view. The books now purchased can all be accounted for, from the time of purchase, until their final distribution among the schools.

In procuring books, we have been governed by the actual present wants of the schools, as we have been desirous of avoiding an unnecessary accumulation, that hereafter we may not have on hand old and obsolete stock to encumber our shelves, or to be exchanged at a loss to the town ; in so doing we are enabled to balance accounts with the publishers at the end of the year, and leave behind no outstanding debts.

At the close of this year, there will be left of the present year's purchase only a sufficient number and variety of books to meet the wants of the schools at the commencement of the summer term, amounting in value to \$77.99, which is but a little more than the amount remaining unsold at the close of the last year.

We have exchanged some more of the old stock of books for such as are now in use, and a few yet remain that cannot well be disposed of.

Some changes must necessarily be made in books to keep pace with the improvements of the times ; but we have made these sparingly, and only upon conviction that such changes would be for the good of the schools.

Mitchell's Geographies, though excellent in their day, have been superseded by others that have come into general circulation, and which are thought to be better adapted to the purposes of instruction in that branch of study. These books have long been in our schools, and have, since their first introduction, passed through many editions ; so that those more recently purchased do not at all agree with those purchased some years since ; making not only classification difficult, but obliging scholars to learn what, though once true, now ceases to be so, on account of changes which have occurred in names and places concerning which it is the province of Geography to teach. Your Committee have, therefore, substituted Cornell's Geographies for Mitchell's, and have been at the trouble of collecting all the old ones in actual use in the schools, and of putting into them new ones instead, without any expense to the scholars, and with but little expense to the town. Many of the old books exchanged for new ones were nearly worn out, and could not possibly have been used much longer ; in this light, the terms of the exchange must be considered liberal to the town, as well as to the scholars.

By a vote of the town, in view of a recent Act of the Legislature putting the power of appointment and contracting with teachers (after July, 1859) into the hands of the Superintending Committee, we were entrusted with that authority at once ; and, consequently, were charged with duties and responsibilities of a critical and delicate kind ; but we have met these responsibilities, and discharged these duties, according to the best of our abilities, without fear or favor, having the welfare of the schools always in view in all our appointments and contracts. How well we have done our duty, and how well we have succeeded, we are willing the candid should judge, after considering all the circumstances connected with our position in initiating a new system and carrying it into

practical operation ; for it must be borne in mind that it takes time to reconcile many minds to any system that is new, however good it may be. This is natural, and to be expected. But, to be persistently opposed to any order of things, simply because it is new, is certainly absurd, and would tend to prevent all progress and improvement. We should not be where we now are as a community, if our fathers had rigidly adhered to old customs and usages, refusing to be guided by the light of new discoveries.

Our School System has been from the beginning a creature of circumstances, and has been developed and matured from time to time as experience and observation seemed to dictate, until it has attained to such a state of excellence as to challenge the admiration of the wise and good of every enlightened community. But it is undoubtedly capable of still greater improvement, and our State legislation has been shaped to bring about this desired object. Perhaps legislation has gone further and faster in some instances than the minds of the people were prepared for ; and, consequently, a reäction of a limited kind has taken place, and caused our legislators to retrace their steps, and wait a short time for the people to be better prepared for changes, that a majority think, even now, would be salutary.

Our District System has not existed in its present form from the beginning. It is within the memory of some of our citizens now upon the stage, that the town once had the entire control of the educational interests of the people within her limits. And equal and exact justice cannot be done to our children, until the town shall make such arrangements, in the location and building of school-houses, and in the equal distribution of the school-money, as will secure to the children of all parts of the town the same privileges, and the same amount and quality of instruction, which is now far from being done, as will be seen by a comparison of the schools with each other in these respects.

Our Schools, supported by the town, with the help of State Funds, are properly termed Public Schools ; for the reason that

they are not only sustained at the public expense, but are designed to be a public advantage, by shedding their benign influence alike upon all classes of the community — upon children of every condition, whether rich or poor ; affording the means of moral and intellectual elevation to the child of the humblest citizen, as well as to those more favored in their circumstances in life. And it is the glory, as well as the aim, of our public system of instruction, that it brings out latent talent which might otherwise lie dormant, and makes it subservient to the interest and prosperity of the State. We have had all along in the history of our beloved Commonwealth many striking examples of the blessings conferred by our Free Schools.

It has been the settled policy of the State to make useful knowledge diffusive, and to have the doors of the Temple of Science not only open and accessible to all, but to make the Temple itself attractive and inviting, and not unseemly and repulsive. And when we come to put a right estimate upon the proper training and education of our children, we shall think almost any amount of labor and expense, when judiciously bestowed, justified by the end we have in view. But our labor and expense should be bestowed judiciously. It is not enough that we cheerfully vote our money to supply the necessary means, but such means should be employed in the manner that experience and observation teach us to be of the greatest practical utility.

Our State Board of Education, made up as it has been of high-minded, intelligent, and honorable men, has from time to time given us the benefit of their superior opportunities for right information upon the subject of public instruction ; and, we may add, there has been a remarkable harmony between their views and those that have been expressed by men of education generally throughout the State.

The policy adopted by the Board many years since, and followed by State legislation, has tended to the same end, viz., that the towns, acting in their corporate capacity, and in harmony with State laws, should take the entire charge of the schools, and make the arrangements for their accommodation,

and the supply of suitable teachers. A majority of the towns have already come into this policy; and none, to our knowledge, that have done so, have relinquished it, and gone back to the old order of things.

In most cases where school-houses are to be built, the burthen bears heavily upon the district; consequently the matter is delayed as long as possible, to the great detriment of the school. And even those districts that have houses in tolerable repair, generally find it difficult to keep them so, without appropriating a portion of the school-money to pay their small bills, under cover of "fuel, &c."

The districts are sometimes called "little democracies." They are certainly little, that is comparatively, as they are by no means as large as the democracy of the whole town; and nothing comes nearer to a true democracy than a town-meeting, where all the citizens can be represented in their own persons. If districts are of any special value independently of towns, why not contend for the right to do every thing within themselves — build their own houses, and keep them in repair — raise their own school-money, — provide their own teachers, and approbate them too? If this matter were to be left entirely to the districts, and the plan carried out *in extenso*, the schools in some districts would go down faster and farther than ever the sun went down upon the dial of Ahaz, and the children of such districts would suffer an irreparable loss.

As things now are, under the district system, the town and district are often in a state of antagonism with each other, and nullify each other's proceedings. The superintending and prudential committees have a divided responsibility, and not unfrequently stand in each other's way. The prudential committee will send a teacher to the superintending committee to be examined, of whom, perhaps, neither has any reliable knowledge; and this is often done but a day or two before the school is to begin, leaving the committee the poor alternative of approbating such an one, or subjecting the school for which the teacher is designed to delay and disappointment, and giving great offence to the parties concerned.

But this is not all ; no committee can form a decisive opinion of any of the qualities of a proposed teacher, except in regard to literary attainments. Ability to govern and discipline a school, aptness to teach, &c., cannot be determined by a mere examination ; and, whatever the committee may think, the teacher offered under such circumstances must be taken upon trust to make an experiment. And again : the success of teachers depends very much upon their adaptation to the particular schools they are to teach ; and this can ordinarily be best judged of by the committee, who have the oversight of all the schools, and observe their peculiarities.

Prudential committees rarely go into the schools to see how the teachers succeed, but throw the responsibility upon the superintending committee ; and they must, in case of failure, either let the school go on, or resort to the disagreeable remedy of dismissal ; in either case instances happen when the whole matter is attended with serious embarrassment. Failures will sometimes occur, let the appointment be made as it may ; but the advantage of making a suitable appointment certainly lies with the committee who must be supposed, from their position, and the manner in which they are chosen, to be most capable of deciding such things. The responsibility, anxiety, and labor, however, of making such appointments for the whole town, are of such a character, that no committee would be likely to desire them for their own sake, or could be reconciled to them on any other ground than that of having the schools brought under a suitable system of instruction, and giving some stability to the employment and profession of the teachers, and not having them made liable to constant changes, as is the case when each district, through its agent, provides for itself.

Of the whole number of teachers employed by your Committee for the year past, all but three were natives and residents of the town ; and two of these had been previously employed in our schools. During the winter term we have had but two who were not natives. Of the whole number employed for the year, five only were *beginners*. In employ

ing teachers, other things being equal, we have given preference to those of our own town, as we wished to encourage home production. We have also, for both the summer and winter terms, employed females, with but one exception, and he a native of the town. Of the teachers employed during the winter term previously to our being invested with the appointing power, we have retained all but four; three of them were males, and all of them from other towns; so that in carrying out our policy, we have employed nearly all females, most of whom had before been successfully employed in this capacity. We have employed in some of our smaller schools, *beginners*, of education and promise. This must be done to some extent, or we can never have any of experience, as all must make a beginning in order to excel in any thing. But our beginners, as a whole, have given us no just cause of complaint, but rather of commendation and approval.

It has been our steady aim to afford all the sympathy and encouragement in our power to such of our teachers as are devoting themselves faithfully to the duties of their profession, with a view to future employment and usefulness; such we wish to have patronized, and always sustained. The labors of competent and faithful teachers cannot be too highly prized, and are but too rarely appreciated. Teachers will not be likely to go through the necessary training, and incur the expenses incident to their education, unless, after such preparation for their work, they are likely to meet with suitable patronage, and obtain a sufficient compensation. There is no other way to retain successful teachers in town than to give them an equivalent for their services.

In graduating the pay for our teachers the past year, we have been governed, as nearly as might be, by the size of the schools, and the experience and ability of the teachers. It is worth twice as much to teach and govern some of our large schools, as it is some of our small ones; and some of our large schools have twice as many scholars as some of our small ones; and, also, a corresponding number of classes and studies.

The vote of the town, in conjunction with a law of the State, requiring the superintending committee to select the teachers, and make contracts with them, has added very much to their labors and responsibilities. In proceeding, we found that the whole field of our operations must be surveyed, and some uniform plan adopted that would, in fixing the pay of the teachers, bear as nearly equal as the circumstances of the case would allow. The district agents had been in the practice of making their contracts without much reference to each other—in a way to suit their own views and convenience; and hence all kinds of prices prevailed, without much regard to the size of the school, or the ability of the teacher; some paying more, some less, as they could best succeed in making a good bargain. Such a state of things would not answer as a precedent for us to follow in our appointments, and the wages to be paid by us. As all the appointments were now to come from one source, we were of the opinion that the prices paid should bear upon them the stamp of uniformity, as far as practicable, taking all things into the account.

The average pay of the teachers will be found to be a little less this year than it was last year. As nearly the same teachers have been employed the year round, the pay has not varied as much between the summer and winter terms as formerly; and the schools have not varied much in the number and ages of scholars between summer and winter. The cost of the summer schools has been some more than usual, but the cost of the winter schools has been less; making, as above stated, the cost of the year's tuition about the same as it has usually been. It was thought best, as nearly all the teachers were to be employed the year round, that not much difference should be made in their pay between summer and winter. In all these particulars we have endeavored to consult the general good of all concerned. It was not possible to accommodate the wishes of the teachers in all things; we have only sought to do it when we could do so consistently with the best interests of the schools. We are happy to state that we think a general good understanding has existed between the

Committee and the teachers, and that our intercourse with each other has been characterized by courtesy and kindness.

Your Committee would cheerfully bear testimony to the general fidelity and efficiency of our corps of teachers; considering the age and inexperience of some of them, we think, as a whole, that they have shown a commendable zeal to excel in their honorable and useful calling, and that they have acquitted themselves creditably, and deserve, as we hope they will receive, the future confidence and patronage of the town.

Our schools generally, throughout the town, have given most gratifying evidences of improvement; and have reflected credit alike upon themselves, and their teachers, by manifesting due subordination, a respectful demeanor, and attention to their studies.

Your Committee have endeavored to impress upon both teachers and pupils the great importance of discipline — mental, moral, and religious; and of suppressing any visible tendency to vice of any kind, and of urging upon the pupils kindness, gentleness, and all those social virtues that go to make up the character of a good man or woman. Our schools are designed to be a nursery, both of good manners and good morals. If “the child is the father of the man,” what should be the child? Not surely like a wild ass’s colt, without culture and training, but like “stones polished after the similitude of a palace.” Our schools will, in many respects, be either a blessing or a curse to our children. How important then that we throw around them the safeguards of good and wholesome influences, and cherish them as the bulwarks of our country’s rights and liberties.

Primary schools, in their relation to schools of a higher grade, are of the greatest importance, as they lay the foundation upon which the future superstructure is to be built. And whether the building shall rest upon a good foundation or not, will depend very much upon the manner in which the elementary branches are taught in our primary schools. If these are imperfectly taught, the child will go limping along

at every step in its future progress ; but if taught with that thoroughness that is to be desired, the child will have in his hands a key to the treasury of all human knowledge and improvement. And whatever may be his advantages after leaving his primary studies, he can, by using the materials already in his possession, go on and fit himself for almost any calling in life. Many of our children will never have any other instructions than those of the primary school ; to them, therefore, these are every thing, so far as education is concerned. Good primary schools are of incalculable value ; and good primary teachers are to be highly prized. This matter is beginning to be viewed in its proper light ; and children are now required to thoroughly review the ground they go over, that they may go more surely, though they go more slowly.

Your Committee are unanimously of the opinion that our district schools have not, of late years, been in a better state than during the past year. Our closing examinations, particularly those of this spring, have been of a very satisfactory kind ; and we have deemed it our duty to express our sincere gratification on many of these occasions, and to give credit to the teachers, and also to the scholars, which we are always most happy to do, as far as we consistently can.

We always consider it a good omen when parents keep their children steadily at school, and lend their cordial co-operation and support to the teachers. If this were done in all cases where it might be consistently done, we should be relieved of much of the evil that now sometimes exists. The ghost of Samuel was not raised with half the trouble that is sometimes taken by disaffected parents to raise something, though not a ghost perhaps, but a *thing* much less harmless. And this is done, not always maliciously, but without considering that it is much easier to find fault than to point out a better way. It not unfrequently happens that things are found fault with that never existed except in rumor, or in the imaginations of the disaffected parties. Too much caution can not be used in forming an opinion from mere rumor, or from the testimony

of school-children even ; for such testimony is often futile, bearing upon its very face the marks of childishness.

But our schools have been, the past year, in a very good degree, in a prosperous state ; and both parents and children have shown a commendable disposition to aid the Committee and the teachers, in their endeavors to bring them to a proper standard of efficiency and usefulness.

We have, the past year, in the use of the discretion lodged with us by a law of the State, made arrangements with the towns of Kingston and Pembroke for the schooling of four of our children in said towns ; viz., two belonging to Mr. Jairus Howland, in District No. 4, who have been accommodated in Kingston, at an expense to our town of the sum that it cost for the schooling of their own children, that is, \$7.30 *per capita*, amounting to \$14.60 ; and for the children of Mr. Peleg Ford in District No. 5, at a school in Pembroke, at a cost of \$10 ; it being about the cost of the tuition of scholars in the school in their own district. These arrangements have been made to accommodate children who, in our judgment, lived at such an inconvenient distance from their own schools as to make such provision justifiable and proper.

The vote of the town at their March meeting, restoring to the district agents the power to appoint teachers and make contracts with them, will relieve the superintending committee of much of their labor and responsibility ; but whether the schools will be improved by this course remains to be seen. It is to be hoped, however, that there will exist a good understanding between the agents and the superintending committee, and that they will labor harmoniously to promote the best interests of the schools. Very much will depend, in order to the successful working of any system, upon a good, healthful public sentiment, and the cordial co-operation of parents with the teachers in their respective districts, in securing the regular and punctual attendance of the scholars, and not needlessly allowing their studies to be interrupted, as is too often the case, by detention at home, or dismissal before the school is closed.

Fellow citizens: your schools in town will be just what you, through your appointed agents, and the policy you are pleased to pursue, are disposed to make them; they will bear the impress of your own hand. By neglect and mismanagement they will suffer; but, by fostering care, and wise supervision, they will thrive and prosper.

## AN ABSTRACT,

TAKEN FROM THE SCHOOL REGISTERS.

---

### DISTRICT No. 1.

Miss Mary K. Cushing, teacher in the summer. Miss Emily W. Sears, teacher in the winter. Whole number of scholars during the year, 57. Whole number of scholars in summer, 53. Average attendance in summer, 43. Whole number of scholars in winter, 57. Average attendance in winter, 51. Length of school in summer, 19 weeks. Length of school in winter, 16 weeks. Wages of teacher in summer, \$22 per month; in winter, \$30.

### DISTRICT No. 2.

Miss Emily W. Sears teacher in the summer. Miss Mary E. Pierce and Miss Jane Burgess in winter. Whole number of scholars during the year, 47. Whole number of scholars in the summer, 46. Average attendance in summer, 37.

Whole number of scholars in the winter, 47. Average attendance in winter, 31. Length of school in summer, 20 weeks. Length of school in winter, 17 weeks. Wages of teacher in the summer, \$22 per month. Wages of teachers per month in winter, \$20 and \$12.

#### DISTRICT No. 3.

Miss Augusta W. Williams teacher in the summer. Mr. Nathan Soule teacher in the winter. Whole number of scholars during the year, 37. Whole number of scholars in the summer, 30. Average attendance in summer, 19. Whole number of scholars in winter, 37. Average attendance in winter, 31. Length of school in summer, 17 weeks. Length of school in winter, 16½ weeks. Wages of teacher per month, in summer, \$22; in winter, \$24.

#### DISTRICT No. 4.

Miss Mary E. Pierce teacher in the summer; Miss Eliza C. Dawes and Mr. Nathan Soule, in winter. Whole number of scholars during the year, 51. Whole number of scholars in summer, 42. Average attendance in summer, 32. Whole number of scholars in winter, 51. Average attendance in winter, 35. Length of school in summer, 17 weeks. Length of school in winter, 13 weeks and 2 days. Wages of teacher in summer, per month, \$22. Wages of teachers in winter, per month, \$24.

#### DISTRICT No. 5.

Miss Mary S. Loudon teacher in summer. Miss Laura L. Eldridge, teacher in winter. Whole number of scholars during the year, 27. Whole number of scholars in the summer, 27. Average attendance in summer, 18. Whole number of scholars in the winter, 22. Average attendance in winter, 12.

Length of school in summer, 17 weeks. Length of school in winter, 16 weeks. Wages of teacher per month, in summer, \$16. Wages of teacher per month, in winter, \$18.

#### DISTRICT No. 6.

Mr. Nathan Soule teacher in the summer. Miss Lucy J. Holmes teacher in the winter. Whole number of scholars during the year, 22. Whole number of scholars in the summer, 17. Average attendance in summer, 13. Whole number of scholars in the winter, 22. Average attendance in the winter, 13. Length of school in the summer, 19 weeks. Length of school in the winter, 17 weeks. Wages of the teacher, per month, in summer, \$16. Wages of the teacher, per month, in winter, \$16.

#### DISTRICT No. 7.

Miss Mercie M. Deleno, teacher in summer. Miss Almira T. Partridge, teacher in winter. Whole number of scholars during the year, 60. Whole number of scholars in the summer, 60. Average attendance in the summer, 47. Whole number of scholars in the winter, 58. Average attendance in the winter, 48. Length of school in the summer, 21 weeks. Length of school in the winter, 18 weeks. Wages of the teacher per month in summer, \$24. Wages of the teacher per month in winter, \$30.

#### DISTRICT No. 8.

Miss Adaline Clarke, teacher in the summer. Miss Mattie S. Waterman, teacher in the winter. Whole number of scholars during the year, 64. Whole number of scholars in the summer, 56. Average attendance in the summer, 43. Whole number of scholars in the winter, 64. Average

## SETTLEMENT WITH LIQUOR AGENT.

By Liquor purchased, - - - - -	\$225 27
“ Agent's salary for one year, - - - - -	40 00
	<u>\$265 27</u>
“ Balance in favor of town, - - - - -	1 13
	<u>\$266 40</u>
For Liquor sold, including barrels, - - - - -	<u>\$266 40</u>

We have also examined the Treasurer's accounts, and find them as follows :—

*Dr.*

Balance in Treasury at last settlement, - - -	\$1,114 01
Received for Engine and house sold, - -	40 00
“ Aaron Josselyn, books sold, - - -	4 38
“ Dividend from N. E. and Merchants' Bank, -	249 00
“ Josiah Peterson, dog taxes, - - -	57 50
“ Town of Brookline, boarding Mrs. Crechore, -	25 75
“ Elbridge Chandler, on account of Alms- house, - - - - -	19 00
“ Mass. School Fund, - - - -	96 76
“ Charles H. Chandler, collector of taxes, -	7762 65
“ Augustus Weston, for use of Town House, -	29 00
“ Town of Kingston, State and County tax, -	17 28
	<u>\$9,415 33</u>

*Cr.*

Paid County tax, - - - - -	\$1,636 06
“ State tax, - - - - -	482 50
“ Interest on money hired at Plymouth Bank, -	13 20
“ Selectmen's orders, - - - - -	3,891 15
“ Almshouse orders, - - - - -	1,731 95
“ for Crows' heads, - - - - -	7 60
“ N. C. Brewster and J. Alden's notes, - -	674 45
Cash on hand, - - - - -	829 93
Uncollected taxes, 1859, - - - - -	148 49
	<u>\$9,415 33</u>

## OUTSTANDING DEBTS OF THE TOWN.

Due the several school districts,	-	-	-	-	\$1,113 49
“ the Selectmen,	-	-	-	-	91 14
					<hr/>
					\$1,204 63
Balance in favor of the town,	-	-	-	-	435 62
					<hr/>
					\$1,640 25
					<hr/>

*Available Means to pay the same.*

Cash in the Treasury,	-	-	-	-	\$829 93
Uncollected taxes, 1859,	-	-	-	-	148 49
Cash in the hands of the collector,	-	-	-	-	461 83
Taxes in the collector's hands, uncollected,	-	-	-	-	200 00
					<hr/>
					\$1,640 25
					<hr/>

The Selectmen would recommend the following sums to defray the expenses of the town the ensuing year, viz: —

Schools,	-	-	-	-	-	-	\$2,000 00
Highways,	-	-	-	-	-	-	1,000 00
Contingent expenses,	-	-	-	-	-	-	500 00
Support of poor,	-	-	-	-	-	-	1,800 00
							<hr/>
							\$5,300 00
							<hr/>

All of which is most respectfully submitted.

ELBRIDGE CHANDLER,	} <i>Selectmen of Duxbury.</i>

“ Jonathan Y. Gross, coffin, shr’d, &c., Miss Beach,				7	00
“ Allen Prior, flour for I. W. Chandler, -				1	75
				<u>\$745</u>	<u>03</u>

*Available Means for Support of Poor, 1860.*

By appropriation for 1860, - - - -	\$1800	00
Received of Town of Brookline for boarding Mrs. Hannah Crehore, - - - -	25	75
Received of J. H. Dawes, for boarding his daughter,	19	00
Produce sold from the farm, - - - -	25	09
	<u>\$1869</u>	<u>84</u>

RECAPITULATION.

The whole amount of available means for the year ending February 13, 1861, - - - -	\$1869	84
Overdrawn from 1859, paid from assessment, 1860, - - - -	\$115	73
Amount expenses in the house, - -	967	15
“ “ out of the house, - -	745	03
Balance to new account, - - - -	41	93
	<u>\$1869</u>	<u>84</u>

The whole number of persons admitted to the house during the year was eighteen. The largest number at any one time was fifteen; the smallest, ten; average number, fourteen. Average expenditures of the house through the year have been \$1.52.06 per week.

There have been raised the past season, upon the land connected with the house, crops sufficient to supply the house during the summer and autumn. Also, harvested for the benefit of the house, the following amount of produce, to wit: one ton and a half of English hay; ninety bushels of potatoes; eight bushels of turnips; half ton of oats fodder; five bushels of beets; six bushels of parsnips; one bushel of onions; one bushel and a half of beans.

*Inventory of Articles remaining in the House, Barn, &c., on the eighteenth day of February, 1861.*

One and a half barrels of pork, one and a half barrels of beef, thirty-nine bushels of potatoes, three bushels of turnips, four bushels of parsnips, one bushel of corn, three bushels of corn-meal, one bushel of rye-meal, forty pounds of lard, six pounds of sugar, one-eighth barrel of flour, three pounds of soda, five pounds of rice, six pounds of tea, six pounds of dried apples, three cords of wood, four tons of coal, one ton of hay, one cow, two hogs.

All of which is most respectfully submitted.

ELBRIDGE CHANDLER,	} Overseers of the Poor.

*To the Town of Duxbury :*

IN compliance with the requirements of the law, the School Committee submit this, their Report.

## CONDITION OF THE SCHOOLS.

### DISTRICT No. 1. — VILLAGE.

The school in this district was taught, both summer and winter, by Miss Emily W. Sears, a teacher combining unusual ability to govern with aptitude to teach. The school, by frequent change of teachers, had become wanting in discipline ; but, under the continued charge of Miss Sears, has been restored to good order and efficiency, and made one of the best in town.

*Length of School.* — Summer, 4 months ; winter, 4 months : in the aggregate, 8 months.

*Wages per Month.* — Summer, \$28 ; winter, \$30.

Cost of instruction, \$232 ; share of school money, \$242.61.

*Whole Number of Scholars.* — Summer, 58 ; winter, 60.

Number under five years of age : summer, 1 ; winter, 1.  
Number over fifteen years of age : summer, 1 ; winter, 4.  
Average attendance : summer, 44 ; winter, 55.

### DISTRICT No. 2. — NOOK.

Miss Mary S. Loudon had charge of the summer term, and Miss Laura L. Eldridge of the winter term. Both of these teachers appeared to be interested in their work, and desirous to advance their scholars in their studies ; but frequent change of teachers, for a few years past, has evidently prevented the school in this district from fully maintaining its former high rank.

*Length of School.* — Summer,  $4\frac{3}{4}$  months; winter,  $4\frac{3}{4}$  months: in the aggregate,  $9\frac{1}{2}$  months.

*Wages per Month.* — Summer, \$20; winter, \$24.

Cost of instruction, \$209; share of school money, \$230.65.

*Whole Number of Scholars.* — Summer, 59; winter, 54.

Number under five years of age: summer, 8; winter, 1.

Number over fifteen years of age: summer, 1; winter, 4.

Average attendance: summer, 44; winter, 49.

### DISTRICT No. 3. — ISLAND CREEK.

No school in town, during the year, has made more substantial progress than that in this district. Mr. Nathan T. Soule, a very faithful and conscientious teacher, by his thorough instruction, in the summer, laid a good foundation for others to build upon. He was followed in the winter by Mr. Peleg T. Keene, Jr., an earnest educator, whose school was a complete success. Mr. Keene deserves much praise for seeking out and applying the best methods of instruction, and for his extraordinary tact in rendering what many make but a matter of dull routine varied and attractive. There was a large attendance, under his instruction, of pupils over fifteen years of age. The closing examination was largely attended by parents and others, and all appeared to be pleased with the marked proficiency made by the scholars. Among the interesting exercises of the occasion, the drills in articulation, and in Dr. Lewis's new system of gymnastics, very justly received particular attention of the visitors.

*Length of School.* — Summer,  $4\frac{1}{4}$  months; winter,  $3\frac{1}{4}$  months: in the aggregate,  $7\frac{1}{2}$  months.

*Wages per Month of the Teacher.* — Summer, \$24; winter, \$34.60.

Cost of instruction, \$214.45; share of the school money, \$239.63.

*Whole Number of Scholars.* — Summer, 36; winter, 52.

Number under five years of age: summer, 1; winter, 0.

Number over fifteen years of age: summer, 0; winter, 7.

Average attendance: summer, 29; winter,  $46\frac{2}{5}$ .

## DISTRICT No. 4. — TREE OF KNOWLEDGE.

Miss Antoinette Bailey taught the school in this district, both summer and winter. The average attendance in the summer was much reduced by sickness prevailing among the pupils. A gratifying feature of the winter school was the presence of an unusual number of scholars over fifteen years of age, who did credit to themselves, by good behaviour and attention to their studies.

*Length of School.* — Summer, 5 months; winter, 4 months: in the aggregate, 9 months.

*Wages per Month.* — Summer, \$18; winter, \$20.

Cost of instruction, \$170; share of the school money, \$242.62.

*Whole Number of Scholars.* — Summer, 51; winter, 59.

Number five years of age: summer, 6; winter, 0. Number over fifteen years of age: summer, 1; winter, 10. Average attendance: summer,  $34\frac{1}{20}$ ; winter,  $45\frac{9}{160}$ .

## DISTRICT No. 5. — ASHDOD.

The school in this district suffered from change of teachers. At least three different individuals had charge of it during the year. Miss Laura L. Eldridge taught the summer term. Miss Eliza C. Dawes began the winter term, and Mrs. F. L. Gifford completed it. Miss Dawes ceased, at the end of six weeks of her school, to board with the daughter of the Prudential Committee, and immediately after he took measures to get rid of her services. It is but justice to Miss Dawes to say that the School Committee did neither approve nor sanction the treatment she received; and, had she been willing to have continued in the school, she would have been sustained. The relation of the teacher to a school should never be rudely severed, nor for any slight cause. The law has wisely left the dismissal of teachers from their schools discretionary with the School Committee. When a Prudential Committee undertakes to do this, he plainly assumes the duties of the School Committee. He can "give information and assistance to the School Committee of the town,

to aid them in the discharge of the duties required of them ;” but he cannot legitimately discharge those duties for them.

*Length of School.* — Summer,  $4\frac{1}{2}$  months ; winter,  $2\frac{3}{4}$  months : in the aggregate,  $6\frac{3}{4}$  months.

*Wages per Month.* — Summer, \$19 ; winter, \$24.

Cost of instruction, \$146.75 ; share of the school money, \$155.83.

*Whole Number of Scholars.* — Summer, 39 ; winter, 37.

Number under five years of age : summer, 5 ; winter, 3.

Number over fifteen years of age : summer, 1 ; winter, 1.

Average attendance : summer,  $28\frac{1}{8}\frac{1}{2}$  ; winter,  $27\frac{1}{4}$ .

#### DISTRICT No. 6. — CAPTAIN ALDEN’S.

The low average of attendance upon the school in this district, during the entire year, was owing, apparently, in a great measure, to the wretched condition of the school-house. This had become so out of repair, that parents regarding the health of their children undoubtedly hesitated to entrust them, except in propitious weather, within its uninviting walls. Miss Lucy J. Holmes had charge of the summer term, and Miss Julia W. Cobb of the winter term. Miss Cobb excelled in teaching the elements of the language. She taught her scholars to execute readily and accurately all the different sounds entering into the formation of words, and thus labored to perfect them in a just articulation, without which there can be no speaking or reading with ease, elegance, or effect.

*Length of School.* — Summer,  $4\frac{1}{2}$  months ; winter,  $3\frac{1}{2}$  months : in the aggregate, 8 months.

*Wages per Month.* — Summer, \$16 ; winter, \$19.

Cost of instruction, \$138.50 ; share of the school money, \$146.86.

*Whole Number of Scholars.* — Summer, 26 ; winter, 26.

Number under five years of age : summer, 0 ; winter, 0.

Number over fifteen years of age : summer, 0 ; winter, 1.

Average attendance : summer, 15 ; winter,  $18\frac{1}{4}$ .

#### DISTRICT No. 7. — MILLBROOK.

The summer term of this school was taught by Miss Almira

T. Partridge. Under her instruction, the scholars made fair progress; but the order and discipline of the school were not as good as should have been maintained. Mr. Nathan T. Soule taught the winter term, and devoted himself to the work with his usual fidelity.

*Length of School.* — Summer, 5 months; winter,  $4\frac{1}{2}$  months: in the aggregate,  $9\frac{1}{2}$  months.

*Wages per Month.* — Summer, \$24; winter, \$30.

Cost of instruction, \$247.50; share of school money, \$226.56.

*Whole Number of Scholars.* — Summer, 61; winter, 55.

Number under five years of age: summer, 3; winter, 0.

Number over fifteen years of age: summer, 0; winter, 2.

Average attendance: summer,  $46\frac{1}{2}$ ; winter,  $42\frac{4}{6}$ .

#### DISTRICT No. 8. — POINT.

Miss Martha S. Waterman, a teacher of considerable experience, taught the summer term. The school appeared well when visited by the Committee; but the register shows there was, on the part of the scholars, no less than *fourteen hundred and thirty-eight* instances of tardiness during the term, — an indication of grave fault somewhere. Miss Mary S. Loudon had the care of the winter school, and labored to raise its condition. She was able, very materially, to reduce the amount of tardiness, as compared with the previous term.

*Length of School.* — Summer, 5 months; winter,  $3\frac{1}{4}$  months: in the aggregate,  $8\frac{1}{4}$  months.

*Wages per Month.* — Summer, \$28; winter, \$24.

Cost of instruction, \$218; share of school money, \$242.62.

*Whole Number of Scholars.* — Summer, 58; winter, 50.

Number under five years of age: summer, 3; winter, 1.

Number over fifteen years of age: summer, 0; winter, 3.

Average attendance: summer, 42; winter,  $35\frac{5}{8}$ .

#### DISTRICT No. 9. — TREMONT.

This school, in the summer, was under the care of Miss Jane Burgess. It was her second attempt at teaching. The results were not as encouraging as could be desired. Miss Lydia S.

Bryant, who had charge of the winter term, met with better success.

*Length of School.* — Summer, 3 months; winter,  $4\frac{1}{8}$  months: in the aggregate,  $7\frac{1}{8}$  months.

*Wages per Month.* — Summer, \$16; winter, \$16.

Cost of instruction, \$114; share of the school money, \$128.84.

*Whole Number of Scholars.* — Summer, 18; winter, 18.

Number under five years of age: summer, 0; winter, 1.  
Number over fifteen years of age: summer, 1; winter, 1. Average attendance: summer, 12; winter, 13.

#### DISTRICT No. 10. — CROOKED LANE.

Miss Maria D. Samson taught the summer school. She was well qualified for her task, both by education and experience. The deportment of her scholars, their studiousness and progress, were all very commendable. The average attendance was remarkably good. The winter school, conducted by Miss Adaline Clarke, closed without the usual examination, in consequence of sickness in the district.

*Length of School.* — Summer,  $3\frac{1}{4}$  months; winter, 3 months: in the aggregate,  $6\frac{1}{4}$  months.

*Wages per Month.* — Summer, \$21; winter, \$20.

Cost of instruction, \$128.25; share of the school money, \$146.86.

*Whole Number of Scholars.* — Summer, 28; winter, 35.

Number under five years of age: summer, 2; winter, 2.  
Number over fifteen years of age: summer, 2; winter, 2.  
Average attendance: summer, 24; winter, 27.

#### DISTRICT No. 11. — UNION.

Miss Mercy M. Delano, a teacher of large experience and of great success, has had this school under her charge, not only during the past year, but, with the exception of a single term, for several years in succession. Through her well-directed endeavors, the school has attained a highly creditable standing; and thus affording an excellent illustration of the wisdom of retaining, term after term, the faithful services of the same good teacher.

*Length of School.* — Summer, 5 months ; winter,  $2\frac{3}{4}$  months : in the aggregate,  $7\frac{3}{4}$  months.

*Wages per Month.* — Summer, \$19 ; winter, \$20.

Cost of instruction, \$140 ; share of the school money, \$167.80.

*Whole Number of Scholars.* — Summer, 35 ; winter, 37.

Number under five years of age : summer, 3 ; winter, 0.

Number over fifteen years of age : summer, 1 ; winter, 1.

Average attendance : summer, 31 ; winter, 31.

#### DISTRICT No. 12. — HIGH STREET.

This school was conducted by Miss Mary E. Pierce, and with success. The scholars were well behaved, attentive to their lessons, and made good proficiency. The specimens of penmanship and bookkeeping were much to be commended, showing that those useful branches had received the attention their importance demanded. The closing examination appeared to give entire satisfaction to all who were present.

*Length of School.* — Summer, 4 months ; winter,  $3\frac{1}{2}$  months : in the aggregate,  $7\frac{1}{2}$  months.

*Wages per Month.* — Summer, \$14 ; winter, 20.

Cost of instruction, \$126 ; share of the school money, \$134.88.

*Whole Number of Scholars.* — Summer, 22 ; winter, 24.

Number under five years of age : summer, 2 ; winter, 1.

Number over fifteen years of age : summer, 1 ; winter, 6.

Average attendance : summer,  $19\frac{28}{9}$  ; winter,  $20\frac{38}{7}$ .

#### SCHOOLING OUT OF TOWN.

It has been provided by law that scholars residing remote from the public schools in their own town, may attend a nearer school in another town, upon such terms as may be agreed upon by the school committees of the two towns. Agreeable to this liberal provision, three children, two of Jairus Howland and one of Edwin Eaton, of District No. 4, residing more than two miles from the school in that district, and being quite young, have been furnished with schooling in a public school in Kingston, at an expense of \$14.47 to Duxbury.

## AVERAGE ATTENDANCE.

It will be seen, by the table accompanying this report, that the ratio of average attendance of scholars in all the schools, to the whole number of persons in town between five and fifteen years of age, which some years was as low as .63, last year was as high as .80. For the last four years, the average ratio has been .75, — much higher than that for any previous period of the same length. This is a very encouraging exhibit. It shows that our schools are making progress, and that they are growing in the confidence and affection of our people.

## TEXT-BOOKS.

It has been the aim of the School Committee for several years to secure in all the schools a uniformity upon the most approved text-books. That object, fortunately, has been now attained. No new adoption has been made during the past year, and it is hoped that the uniformity now established may not require to be materially disturbed for a long time.

The arrangement instituted three years ago for the supply of text-books, which require the depositary to account definitely, at the end of each year, to the town, and to furnish the schools with the books required, at a merely nominal advance upon cost prices, has been continued.

Dr. Wilde, the present depositary, at the beginning of the school year, received from his predecessor in office books amounting to \$77.99; and has had occasion to purchase additional stock to the amount of \$146.32, on which a profit of \$12.80 was realized. His supplies to the schools amount to \$187.37; leaving in his hands, to the credit of the town, stock costing \$49.74.

The cash and unpaid bills, for books delivered to scholars in District No. 5, have not been returned to the depositary, although promised some time since. This is much to be regretted, as it necessarily delays the making up of his account to be audited by the selectmen. The Prudential Committee of the district named took the cash and unpaid bills, that should have been returned by the teacher, as the account is between the teacher and depositary. The proceeding was irregular, and, unless it can be satisfactorily explained, is extremely reprehensible.

## SCHOOL-HOUSES.

The condition of these useful structures of any place may be regarded as a pretty sure index of the character of its inhabitants. What impression, then, are our school-houses calculated to give of the intelligence, taste, and self-respect of the citizens of Duxbury? Are all these buildings in town, as they should be, commodious in their internal appointments, and tasteful and pleasant in their immediate surroundings? These are pertinent inquiries; for whatever is brought under the frequent observation of the young must have its influence upon their susceptible natures for good or for evil.

Shabby school-rooms induce slovenly habits. Ill-constructed benches may not only distort the body, but, by reflex influence, the mind as well. Wintry blasts sweeping in through open floors, or broken windows, not only injure the health, but chill the warm glow of youthful enthusiasm. Conditions like these seldom fail to disgust the learner with his school, and neutralize the best efforts of his teachers. On the other hand, neat, comfortable, and agreeable places for study may help to awaken associations enchainning the mind and heart to learning and virtuous instruction, with links of gold brightening for ever.

A school district, obliged by law to provide a *suitable* school-house, by neglecting for one year so to do, is "liable to a fine not exceeding two hundred dollars, to be recovered by indictment, on complaint by any legal voter in said district."

The school-house in District No. 6 is one of those relics of the past now happily becoming quite rare. It is too small for the number of scholars, too low in the ceiling, too much out of repair, and too much *ventilated all over*! It should give place to one that is "suitable."

The school-house belonging to District No. 5, although new and in good repair, is hardly large enough for its school. The school-houses of Districts No. 4, 7, and 8 could be greatly improved in their internal aspect, at no great expense, by a judicious application of whitewash, paper, and paint. Those of Districts No. 2, 9, 11, and 12 are in fair condition; and those of Districts No. 1, 3, and 10 are modern structures, conveniently

arranged, commodious, and in a good degree in accordance with the requirements of the age.

Most of the houses do not have sufficient play-grounds attached; and all could be made more attractive by the grading of their grounds, and by the planting of trees and shrubbery.

### SELECTION OF TEACHERS.

It has been customary for the town, as during the last year, to allow each Prudential Committee to select and contract with the teacher of the school in his district. This course has many objections, and should mend or end.

The office of Prudential Committee is unattended with emoluments, and its honors are not esteemed very highly; so that it often goes in rotation, by general consent, from one individual to another, each glad, at the end of a year, to be relieved from its requirements. The incumbent may be a good farmer or mechanic, and well-intentioned, and yet lack the necessary knowledge and experience to perform the responsible trust of selecting a suitable instructor for immortal minds. If a good teacher has charge of a school this year, there is no certainty that the same faithful services will be continued; for the coming man, next year, may have some relative or favorite to provide for, even should thereby the interest of the district suffer. While this state of things is allowed, there will be frequent change of teachers; and, as a direct consequence, the scholars, discouraged by being often put back in their studies, and confused by conflicting methods of instruction, will obtain knowledge, if at all, under great difficulties.

The School Committee, as now constituted of only three members, and these generally professional men, sometimes all residents of the same section of the town, can scarcely be sufficiently conversant with the views and wants of the several districts, perhaps, to make the most acceptable distribution of teachers among them. A School Committee, however, can be chosen, consisting of six members, including both practical and professional men, and selected, one from every two districts, so as fairly to represent all sections of the town. Such a board could

safely be entrusted with the choice of teachers. Shall so feasible a remedy for the evils arising from divided responsibility in the management of our schools be tried? Should the town so determine, it is confidently believed a great reform would be inaugurated.

### GRADED SCHOOLS.

The multiplicity of school districts in town prevents any thing like gradation in any of the schools. In the south-western, western, and north-western parts of the town, owing to the sparseness of the population, the number of districts could not, perhaps, be advantageously lessened. But all the village districts, including that of Mill Brook, might be consolidated into two; admitting conveniently of establishing in each of one secondary or grammar school and two primary schools.

To carry out this system, no additional school-houses would be demanded, although the location of some might require to be changed. The expenses of instruction would not necessarily be increased, as no more teachers would be needed than at present.

The benefits arising from the consolidation would be manifold. The pupils, by being nearly of the same age and attainment, the same school, could be advanced uniformly; the classes to be taught by any one teacher being few, would admit of full justice being done to each branch of study; the younger and older pupils being in different schools, the former would be less likely to be actuated by any bad examples of the latter; and the promotions incidental to the system, by qualification, from a lower grade of school to one that is higher, would be well calculated to stimulate the ambition of the learner.

By means of graded public schools, and the Partridge Academy, which, through the beneficence of its founder, is open free for all who may qualify themselves for its course, the children, few, if any, communities, would enjoy equal privileges with others for obtaining a good education.

## SETTLEMENT WITH LIQUOR AGENT.

By Liquor purchased,	\$202 36	
Agent's salary one year,	40 00	
	<hr/>	
		\$242 36
Liquor sold,	\$239 67	
Balance against the town,	2 69	
	<hr/>	
		\$242 36

We have examined the account of Eden S. Sampson, Esq., Treasurer for 1861, and find them as follows:

*Dr.*

Foot of tax bills,	\$7,333 88	
Received of Josiah Peterson, dog tax,	15 00	
Bank dividends,	154 50	
Mass. school fund,	94 18	
Harvey Soule, Treasurer, 1860,	83 28	
Augustus Weston's account of town house,	13 00	
	<hr/>	\$7,693 84

*Cr.*

Paid County tax,	\$1,336 84	
State tax,	414 00	
Selectmen's orders,	3,104 20	
Overseers of Poor orders,	1,577 63	
Uncollected taxes,	262 98	
Cash on hand,	998 19	
	<hr/>	\$7,693 84

We have also examined the accounts of Harvey Soule, Esq., Treasurer for 1860, and find them as follows:

*Dr.*

Balance in Treasury at last settlement, in cash,	\$829 93	
Uncollected taxes,	148 49	
Rec'd of Josiah Peterson, dog tax,	4 50	
Charles H. Chandler, Collector, 1860,	575 73	
	<hr/>	\$1,558 65

*Cr.*

Paid Selectmen's orders,	\$1,242 85	
Overscers Poor orders,	151 98	
Uncollected taxes,	80 54	
Cash paid Eden S. Sampson, Treasurer 1861,	83 28	
	<hr/>	\$1,558 65

## OUTSTANDING DEBTS OF THE TOWN.

Due the several School District,	\$1,117 99	
Balance in favor of the town,	309 82	
	<hr/>	\$1,427 81

## AVAILABLE MEANS TO PAY THE SAME.

Cash in the Treasury,	\$998 19

RECAPITULATION.

The whole amount of available means for the		
year ending Feb. 18th, 1862,	\$1870 08	
Balance debtor to new account,	14 70	
	<u>          </u>	\$1884 78
Amount expenses in the house,		\$980 19
“ “ out of the house,		904 59
		<u>          </u>
		\$1884 78

The whole number of persons admitted to the house during the year was twenty-one; the largest number at any one time was twenty; the smallest, fifteen; average number, sixteen and four-fifths; average expenditures of the house through the year have been one dollar twelve cents and five mills per week.

There has been raised, the past season, upon the land connected with the house, crops sufficient to supply the house during the summer and autumn. Also, harvested for the benefit of the house the following amount of produce, to wit: Two and one-half tons of English hay, seventy-five bushels of potatoes, twenty bushels of turnips, seven bushels of parsnips, two and one-half bushels of beets, three bushels of beans, one and one-half tons of pumpkins.

INVENTORY OF ARTICLES REMAINING IN THE HOUSE AND  
BARN, &c., ON THE 18TH DAY OF FEBRUARY, 1862.

One and one-half barrels of pork, one and one-third barrels of beef, forty bushels of potatoes, ten bushels of turnips, four bushels of parsnips, two bushels of beets, two bushels of corn, one and one-half bushels of corn meal, one and one-half bushels of beans, sixty pounds of ham, fifty pounds of fish, two-thirds of a barrel of fish tongues, fifty pounds of lard, one-half barrel of flour, eight gallons of molasses, three pounds of tea, two pounds of soda, one barrel of soap, four tons of coal, two cords of white pine wood, one cord of oak wood, one cord of pitch pine wood, one ton of hay, one cow, three hogs.

All of which is most respectfully submitted,

Balance debtor, for 1861,	14 70	
	<hr/>	\$ 2,156 51

The whole number of persons admitted to the house during the year was thirty-four ; the largest number at any one time was twenty-seven, the smallest eighteen ; average number twenty-three and one twelfth ; average expenditures of the house through the year have been ninety cents and eight mills per week.

There has been raised the past season on the land connected with the house crops sufficient to supply the house during the summer and autumn. Also harvested for the benefit of the house, the following amount of produce, to wit:—One ton of English hay, seventy-five bushels of potatoes, thirty bushels of turnips, three bushels of parsnips, four bushels of beets, four bushels of beans, one ton of pumpkins.

INVENTORY OF ARTICLES REMAINING IN THE HOUSE AND BARN, &C.,  
ON THE 18TH DAY OF FEBRUARY, 1863.

Two barrels of pork, half a barrel of beef, one hundred and twenty pounds ham, fifty-five pounds of lard, eighteen pounds butter, twenty-five pounds of fish, one barrel of flour, twenty gallons molasses, one hundred and fifteen pounds of sugar, twelve pounds of tea, two pounds of soda, thirty-five bushels potatoes, twenty bushels of turnips, three bushels beets, two bushels carrots, one bushel parsnips, one and one half barrels soap, two and one half bushels beans, four tons of coal, seven cords of pitch-pine wood, one cord of oak wood, two bushels of corn, four bushels of cornmeal, one ton of salt hay, half a ton of English hay, one cow, three pigs.

All of which is most respectfully submitted.

ELBRIDGE CHANDLER,	} <i>Overseers</i> <i>of</i> <i>the Poor.</i>
SAMUEL ATWELL,	
JOHN HOLMES,	

*A List of the Names of each Tax-payer in the Town of Duxbury for the year 1862, together with Valuation of Real and Personal Estate, with Deficiency in Highway and Book Tax.*

" " aid to families,	473 15
	<hr/> \$ 11,812 76

## SETTLEMENT WITH LIQUOR AGENT.

Liquor purchased from February 20, 1863, to February 18, 1864,	\$ 300 96	
United States License, from October 1, 1863, to May 1, 1864,	13 33	
Agent's salary one year,	40 00	
	<hr/>	\$ 354 29
Liquor sold, including barrels,	\$ 356 81	
Amount of liquor on hand over last settlement,	5 00	
	<hr/>	\$ 361 81
Balance in favor of Town,		<hr/> \$ 7 52

We have examined the accounts of Eden S. Sampson, Esq., Treasurer for 1863, and find them as follows:—

	Dr.	
Foot of tax bills,	\$ 10,415 12	
Uncollected taxes, 1861, 1862,	611 37	
Cash on hand at last settlement,	296 51	
Received of Massachusetts School Fund,	99 84	
“ “ Josiah Peterson, licenses on dogs,	47 70	
“ “ “ “ paper sold,	2 12	
Omitted tax,	2 00	
Hired for schools,	355 00	
“ to pay soldiers' bounties,	6,000 00	
“ to aid families of volunteers,	7,374 96	
	<hr/>	\$ 25,204 62
	Cr.	
Paid County tax,	\$ 1,145 86	
State tax,	3,312 00	
Selectmen's orders,	3,690 00	
Overseers of the Poor orders,	2,178 91	
Crows' heads,	4 62	
Sixty soldiers, one hundred dollars each,	6,000 00	
Family Aid orders,	7,374 96	
Uncollected taxes, 1863,	478 79	
Cash on hand at settlement,	1,019 48	
	<hr/>	\$ 25,204 62

## OUTSTANDING DEBTS OF TOWN.

Due the several School Districts,	\$ 1,016 72	
Money hired for schools,	355 00	
	<hr/>	\$ 1,371 72

## AVAILABLE MEANS TO PAY THE SAME.

Cash in hands of the Treasurer,	\$ 1,019 48	
Uncollected taxes, 1861, 1862, and 1863,	478 79	
“ “ 1860, Charles H. Chandler's		
hands,	51 10	
“ “ 1859, Harvey Soule's hands,	80 54	
	<hr/>	\$ 1,629 91
Balance in favor of the Town,		<hr/> \$ 258 19

The Selectmen would recommend the following sums to defray the expenses of the Town the ensuing year, viz: —

Schools,	\$ 2,000 00
Highways,	1,000 00
Support of Poor,	2,200 00
Contingent expenses,	700 00
	<hr/>
	\$ 5,900 00

We would also recommend for the Towns to raise to pay in part the Town's debts, and interest on Bounties and Family Aid, \$ 3,000 00

All of which is most respectfully submitted.

ELBRIDGE CHANDLER,	} <i>Selectmen</i>
SAMUEL ATWELL,	
BENJAMIN ALDEN,	
	<i>of</i>
	<i>Duxbury.</i>

## REPORT OF THE OVERSEERS OF THE POOR.

INVENTORY OF ARTICLES REMAINING AT THE ALMSHOUSE FEBRUARY  
18, 1864.

10 lbs. hard soap,  $1\frac{1}{2}$  barrels soft soap, 15 lbs. saleratus, 180 lbs. ham, half barrel beef, 225 lbs. pork, 3 pecks salt, half bushel onions, 20 gall. vinegar, 40 gall. molasses,  $4\frac{1}{2}$  bush. parsnips,  $1\frac{1}{2}$  bush. carrots, 1 bush. beets, 6 bush. turnips, 10 bush. potatoes, 15 bush. potatoes, small, 3,500 lbs. coal, 2 cords oak wood, 2 cords pine wood, 25 lbs. salt fish, 2 barrels flour, 1 bush. corn, one third barrel sugar, 15 lbs. tea, 2 bush. beans, 65 lbs. lard, half ton poor hay, one cow, ten hens.

Whole amount valued at \$ 250.

The Board of Overseers of Poor have received and considered numerous applications for aid outside the House. Many of which, as will be seen by the foregoing report, have been relieved. And still quite a number have been refused, or only partially assisted. The Board discriminating as carefully as possible, intending to do justice to all, and give only to the truly needy and deserving, — those disposed to help themselves. Endeavoring to keep the expenditures within the appropriation if possible.

Your Board would recommend, that, in future the books and accounts of the Overseers be more carefully kept than in the past.

Mr. Chandler, the Superintendent, and wife, have managed the affairs of the establishment to the entire satisfaction of the Board, and we respectfully recommend to our successors in office to retain them in their present position.

All of which is most respectfully submitted.

CHAS. H. CHANDLER,	} <i>Committee of</i>	
ZIBA HUNT,		<i>the Overseers</i>
J. S. LORING,		<i>of the Poor.</i>

ANNUAL REPORT OF

8

THE SCHOOL COMMITTEE

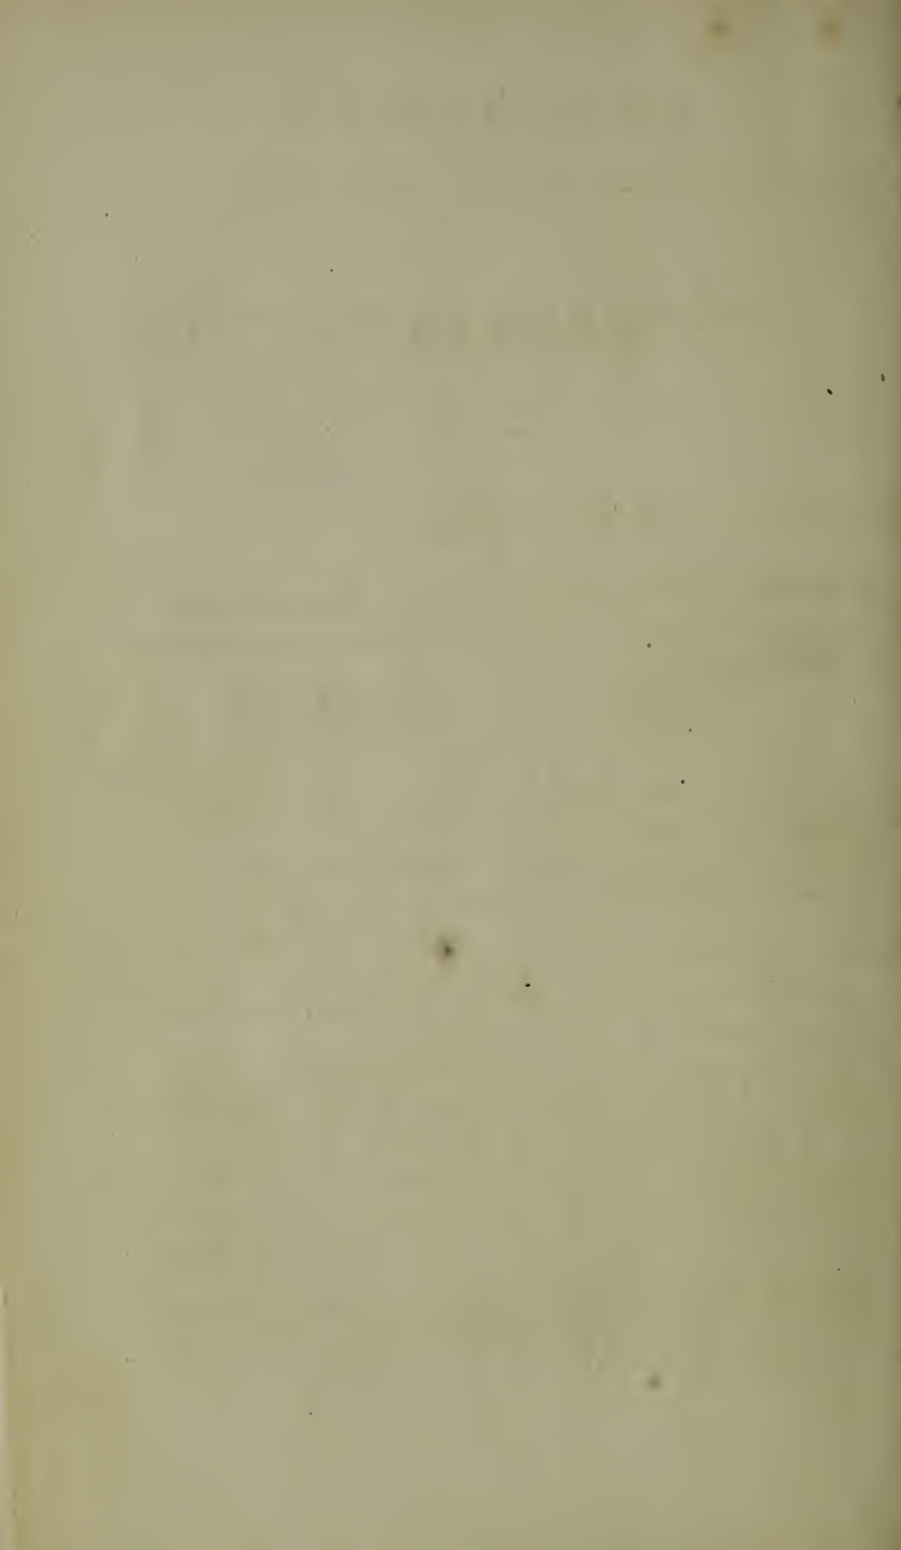

OF THE

TOWN OF DUXBURY,

FOR THE SCHOOL YEAR 1863-4.

---

PLYMOUTH:  
MEMORIAL AND ROCK PRESS.  
1864.

# REPORT.

---

*To the Inhabitants of the Town of Duxbury:*

In compliance with the Statutes, the School Committee present a concise detailed report of the schools, partly in abstracts from the school registers.

## DISTRICT NO. I. VILLAGE.

LENGTH OF SCHOOL.—Summer, 4 months; winter, 4 months: in the aggregate, 8 months.

WAGES OF TEACHER PER MONTH.—Summer, \$26; winter, \$28. Whole amount, \$216.

WHOLE NUMBER OF SCHOLARS.—Summer, 54; winter, 57. Number under five years of age: summer, 0; winter, 0. Number over fifteen years of age: summer, 0; winter, 5. Average attendance: summer, 46; winter, 48 31-40.

ROLL OF HONOR.\*—*Summer*.—Ezra O. Winsor, Seaborn Wadsworth, Henry L. Winsor, Thos. H. Wadsworth, Chas. C. Weston, Georgie B. Winsor, Fannie D. Delano, Ann D. Sears, Frank C. Goodspeed, Chas. A. Burditt, Frank T. Holmes, Ella W. Wadsworth, Leona Winsor, Ella M. Delano, Anna B. Winsor, Lilian Delano, Edwin S. Goodspeed, Rufus Delano, Charlie H. Alden,

---

\*A pledge was given to the scholars at the commencement of the Summer Term, that those who were not absent but one day during a single term, should have their names placed upon the Roll of Honor. Most of those thus enrolled have not been absent one day.

Clarance Weston, Clara M. Holmes, Sophia M. Bradford, Mary E. Delano, Bessie F. Burditt, Ann M. Winsor, Herbert Wadsworth, Earnest Wadsworth, Geo. W. Holmes.

This school has been under the charge of the teacher, who has presided over it for a number of years. Good progress has been made in the different branches taught. We think the District will do well to secure the services of the same teacher. The closing examination was a very excellent one. Teacher—Emily W. Sears.

## DISTRICT NO. II. NOOK.

LENGTH OF SCHOOL.—Summer, 4 1-2 months; winter, 3 3-4 months: in the aggregate, 8 1-4 months.

WAGES OF TEACHER PER MONTH.—Summer, \$24; winter, 22; whole amount, \$190.50.

WHOLE NUMBER OF SCHOLARS.—Summer, 61; winter, 61 for eight weeks, then 28. Number under five years of age: summer, 3; winter, 0. Number over fifteen years of age; summer, 1; winter, 1. Average attendance: 51 14-95; winter, 1st average, 50 31-38; 2d, 24 9-17; whole average, 37 3-5. After the eighth week of the school it was divided.

## PRIMARY DEPARTMENT.

LENGTH OF SCHOOL.—Winter, 2 months.

WAGES OF TEACHER PER MONTH.—\$16. Whole amount paid for teaching, \$222.50.

WHOLE NUMBER OF SCHOLARS—33. Average attendance, 23.

ROLL OF HONOR.—*Summer*.—Lizzie Pierce, Mary A. Freeman, Geo. L. Wadsworth, Chas. S. Pierce, Augustus B. Cushing, Chas. H. Brewster, Fannie Burns, Herbert A. Peterson, Walter B. Wadsworth, Micah Soule, Arthur Bailey, Ernest B. Freeman, Lydia P. Soule, Clara M. Freeman, Fred. A. Sampson, Simeon Farrington.

This school during the summer term was well conducted, and marked progress made by the pupils; especially in Arithmetic and Geography. The scholars were trained to answer with great promptness. The winter school was not as successful. Some of the District were desirous to divide the school, which was done, necessarily producing embarrassment, resulting in a broken school. The Primary Department did not accomplish what it would under other circumstances. All of the teachers received the commendation of the Committee.

Teachers — Summer, Laura B. Eldridge; Winter, Jane M. Pierce; Primary, Abbie P. Josselyn.

### DISTRICT NO. III. ISLAND CREEK.

LENGTH OF SCHOOL.—Summer, 5 months; winter, 3 months; in the aggregate, 8 months.

WAGES OF TEACHER PER MONTH.—Summer, \$20; winter, \$37. Whole amount, \$211.

WHOLE NUMBER OF SCHOLARS.—Summer, 53; winter, 52. Number under five years of age: summer, 1; winter, 1. Number over fifteen years of age: summer, 0; winter, 3. Average attendance: summer, 46; winter, 38.

ROLL OF HONOR.—*Summer*.—Ida Bailey, Flora L. Dawes, Emagene Sampson, Mary L. Soule, Ida G. Simmons, Wm. E. Brown, David H. Chandler, Frank H. Dawes, Abbot W. Simmons, Fred. L. Chandler, Joseph J. Sheppard.

The teacher of the summer school secured the affections of the scholars and parents, and the attendance was better than in the winter. The teacher of the winter term possessed good natural and acquired abilities to teach. He was an excellent disciplinarian, and the closing examination showed that he had been thorough in the work which he had undertaken.

Teachers—Summer, Julia W. Cobb; Winter, Austin V. Tilton.

## DISTRICT NO. IV. TREE OF KNOWLEDGE.

LENGTH OF SCHOOL.—Summer, 5 months ; winter, 3 months : in the aggregate, 8 months.

WAGES OF TEACHER PER MONTH.—Summer, 16 ; winter, 36. Whole amount, \$188.

WHOLE NUMBER OF SCHOLARS.—Summer, 57 ; winter, 61. Number under 5 years of age ; summer, 5 ; winter, 1. Number over fifteen years of age : summer, 0 ; winter, 2. Average attendance : summer, 42 92-99 ; winter, 47 20-60.

ROLL OF HONOR.—*Summer*.—Mary A. Philips, Granville A. Glover, John H. Glover. *Winter*.—Desiah Glass, Geo. L. Gardner, John H. Glover, Wadsworth Chandler.

This school has not been as successful this year, as in the past.

Teachers—Summer, Bethia H. Cobb ; Winter, Harrison Clarke.

## DISTRICT NO. V. ASHDOD.

LENGTH OF SCHOOL.—Summer, 2 1-4 months ; winter, 1 3-4 months : in the aggregate, 4 months.

WAGES OF TEACHER PER MONTH.—Summer, \$18 ; winter, \$20. Whole amount, \$75.50.

WHOLE NUMBER OF SCHOLARS.—Summer, 38 ; winter, 31. Number under five years of age : summer, 3 ; winter, 1 ; Number over fifteen years of age : summer, 0 ; winter, 0. Average attendance, summer, 33 ; winter, 27.

ROLL OF HONOR.—*Winter*.—Adriannah L. Baker, Effie M. Chandler, Mary E. Baker, Betsey P. Simmons, Ella Church, Martha L. Church, Lizzie P. Damon, Rob. F. Randall, Horace W. Randall, Edward A. Randall, Wm. M. Taylor, Geo. C. Taylor, Geo. M. Church, Edgar F. Delano.

The extreme brevity of the summer and winter schools in this District, is a matter of deep regret to all interested. We hope they will be more fortunate in the future.

Teachers—Summer, Hannah B. Barker; Winter, Isabell J. Pratt.

### DISTRICT NO. VI. ALDEN.

LENGTH OF SCHOOL.—Summer, 4 months; winter, 3 months: in the aggregate, 7 months.

WAGES OF TEACHER PER MONTH.—Summer, \$17; winter 20. Whole amount, \$128.

WHOLE NUMBER OF SCHOLARS. — Summer, 21; winter, 27. Number under five years of age: summer, 2; winter, 2. Number over fifteen years of age: summer, 0; winter, 2. Average attendance: summer, 23 23-40; winter, 22 9-10.

ROLL OF HONOR.—*Summer*.—Willie Whiting, Fred A. Chandler, Austin Whiting. *Winter*.—Jessie Chandler, Anna D. Bailey, Austin Whiting, Fred. A. Chandler.

The teacher in this school is worthy of commendation, for her persevering and judicious efforts to advance the interests of her pupils, which were crowned with a good degree of success. Comparatively, no greater progress has been made by any school in the town, during the last year.

### DISTRICT NO. VII. MILLBROOK.

LENGTH OF SCHOOL.—Summer, 4 1-4 months; winter, 3 3-4 months: in the aggregate, 8 months.

WAGES OF TEACHER PER MONTH.—Summer, \$24; winter, 24. whole amount, \$192.

WHOLE NUMBER OF SCHOLARS.—Summer, 56; winter, 52. Number under five years of age: summer, 2; winter, 0. Number over fifteen years of age: summer, 1; winter, 1. Average attendance: summer, 45 4-17; winter, 45 19-25.

ROLL OF HONOR.—*Summer*.—Lucia B. Harlow, Clara M. Sampson, Flora J. Weston, Arthur F. Arnold, Elisha Sampson, Eugene C. Woodward, Willie J. Delano, Emery A. Chandler, Willie Howard, Everett E. Chandler. *Winter*.—Lucia B. Harlow, Flora J.

Weston, Hattie J. Ford Simeon Sampson, Geo. W. Thomas, Willie J. Delano, Everett E. Chandler, Nellie Sampson, Sophia P. Chaudler, Emery A. Chandler, Arthur F. Arnold, Myron L. Delano, Eugene C. Woodward, Everett Arnold.

The teacher and pupils of this school deserve special commendation. The teacher has presided over this school for a number of years, putting forth unceasing effort for the advancement of her pupils. The interest manifested by her has been appreciated by the parents and scholars, and in return they have given their hearty co-operation.

The closing examination was characterized by good reading, spelling, and promptness in answering Arithmetical and Geographical questions. Honorable mention should be made of Lucia B. Harlow, who has not been absent from school but six days for seven and a half years, and then detained by sickness. This is a *noble* record. Teacher—Ella L. Ford.

#### DISTRICT NO. VIII. POINT.

LENGTH OF SCHOOL.—Summer, 3 1-2 months; winter, 2 3-4 months: in the aggregate, 6 1-4 months.

WAGES OF TEACHER PER MONTH.—Summer, \$20; winter, \$32. Whole amount, \$158.

WHOLE NUMBER OF SCHOLARS.—Summer, 33; winter, 34. Number under five years of age: summer, 2; winter, 0. Number over fifteen years of age: summer, 0; winter, 1. Average attendance: summer, 29 6-10; winter, 30.

ROLL OF HONOR.—*Summer*.—Sylvia J. Burgess, Julia M. Turner, Walter Cushman. *Winter*.—Walter Cushman, Geo. Nickerson, Henry B. Alden, Percy Weston, Henry Nickerson, Rob. Cushman, Arthur Chandler, Freddie Cushman, Lawrence Wilde, Lydia Cushman, Judith Cushman, Lizzie Nickerson, Isabel F. Soule, Isabel Weston.

The parents and those interested in the education of children and youth in this District, being so well assured that the efforts of the teacher of the winter school were successful, that they raised

money to continue the school five weeks, after the public term expired. The discipline very good. Reading and spelling good. Recitations in Arithmetic and Geography good. We would present words of approbation and encouragement to the scholars; and urge them to still greater efforts in the course of well doing.

Teachers—Summer, Ellen F. Rider; Winter, Nathan T. Soule.

### DISTRICT NO. IX. TREMONT.

LENGTH OF SCHOOL.—Summer, 4 months; winter, 4 1-2 months: in the aggregate, 8 1-2 months.

WAGES OF TEACHER PER MONTH.—Summer, \$16; winter, \$16. Whole amount, \$136.

WHOLE NUMBER OF SCHOLARS. — Summer, 20; winter, 19. Number under five years of age; summer, 0; winter, 0. Number over fifteen years of age: summer, 0; winter, 2. Average attendance: summer, 15 15-22; winter, 15 27-45.

ROLL OF HONOR.—*Summer*.—Emily H. Moore, Adeline Withereel, Geo. W. Brewster. *Winter*.—Julia N. Brewster, Annie G. Soule, Geo. W. Brewster.

No note of fault-finding or crimination has reached the ears of the Committee, in regard to the teacher's manner of enforcing discipline, or mode of instruction. It is pleasing to us, to be able to commend her in this her first effort in teaching.

Teacher—Anna F. Keen.

### DISTRICT NO. X. CROOKED LANE.

LENGTH OF SCHOOL. — Summer, 3 1-2 months; winter, 3 months: in the aggregate, 6 1-2 months.

WAGES OF TEACHER PER MONTH.—Summer, \$16; winter, 20. Whole amount, \$116.

WHOLE NUMBER OF SCHOLARS. — Summer, 28; winter, 30. Number under five years of age: summer, 1, winter, 0. Number over fifteen years of age: summer, 1; winter, 4. Average attendance: summer 24; winter, 25 9-15.

ROLL OF HONOR.—*Summer*.—Clara Boylston, Judith Witherell, Mary Boylston, Alice Alden, Mercie Alden, Isabel Witherell, Addie Witherell, Amy Fish, Clarence Boylston, Chas. Y. Sprague, Geo. Belknapp, Arthur Fish, Frank M. Sinnot, Elisha Peterson. *Winter*.—Judith Witherell, Isabel Witherell, Harriet E. Dorr, Mary Boylston, A. Granville Witherell, Arthur P. Fish, Clarence Boylston, Edwin N. Pratt.

The commendation of the Committee was freely given to the teachers, summer and winter. Credit is also due to the scholars for their hearty co-operation with their instructors, and for their general good deportment. Let them continue to pursue this course, and they will reap a rich reward.

Teachers—Summer, Emma C. Paulding; Winter, Augusta J. Church.

#### DISTRICT NO. XI. UNION.

LENGTH OF SCHOOL. — Summer, 4 months; winter, 2 1-2 months: in the aggregate, 6 1-2 months.

WAGES OF TEACHER PER MONTH.—Summer, \$19; winter, \$20. Whole amount, \$126.

WHOLE NUMBER OF SCHOLARS. — Summer 39; winter, 37. Number under five years of age: summer, 0; winter, 0. Number over fifteen years of age: summer, 2; winter, 2. Average attendance: summer, 35; winter, 34.

ROLL OF HONOR.—*Summer*.—Clara Peterson, Minnie Winsor, Agnes Winsor, Mary Cushman, Willie Faunce, Edgar Peterson, Carroll Faunce, Eugene Winsor, Wm. Frazer, Geo. Holmes, Betsey Childs, Adaline Childs, Jessie Northy, Clara Cushman, Frank Alden, Roger P. Goodspeed, Fred. Winsor, Clifton Peterson, Herbert Graves, Enos Keep. *Winter*.—Martha Gilbert, Betsey Childs, Adaline Childs, Clara Cushman, Clara Peterson, Emma Gilbert, Mary Cushman, Geo. Peterson, Frank Witherell, Oscar Holmes, Fred. Winsor, Geo. Holmes, Enos Keep, Edwin Delano, Frank Cushman, Frank Alden, Carrol Faunce, Wentworth Peterson, Clifton Peterson.

The teacher who presided over this school the past year has been employed by the District for eight years, with the exception of one term, and the result of her efforts the last year demonstrates the truth that, when a teacher is doing the real work of a teacher, the true interests of the school demand that no change should be made. The plan adopted by the teacher of giving "Monthly Reports" to her pupils, has resulted very favorably. It has stimulated them to make unusual effort to excel in their studies; also tended to make them watchful and careful in regard to their deportment. Thus the teacher gained two important results: *first*, increasing the interest; and *secondly*, perfecting the discipline of the school by that interest. The "Monthly Reports" were placed in the hands of the Chairman of the Committee every month; and to encourage the pupils a pledge was given that those who excelled should be noticed in the School Report.

The whole number of scholars in the winter was thirty-seven; we present twenty-five names with their lessons and the result.

### LESSONS.

	Excellent.	Good.	Failure.		Excellent.	Good.	Failure.
Martha Gilbert,	189	5	1	Geo. Peterson,	179	12	9
Betsey Childs,	164	20	16	Willie Faunce,	208	9	7

Teacher—Mercy M. Delano.

### DISTRICT NO. XII. HIGH STREET.

LENGTH OF SCHOOL.—Summer, 3 1-4 months; winter, 2 3-4 months: in the aggregate, 6 months.

WAGES OF TEACHERS PER MONTH.—Summer, \$16; winter, \$14. Whole amount, \$90.50.

WHOLE NUMBER OF SCHOLARS.—Summer, 26; winter, 27. Number under five years of age: summer, 4; winter, 2. Number over fifteen years of age: summer, 0; winter, 1. Average attendance: summer, 19 39-65; winter, 22 32-105.

ROLL OF HONOR.—*Summer*—Senora T. Loring, Lizzie J. Bailey, Geo. W. Peterson.

The summer school was well conducted, and the scholars made good progress in their studies. The teacher sustained her former reputation and received the approbation of the Committee.

Teachers—Summer, Antoinette Bailey; Winter, Emily Ayers.

---

### CONDITION OF THE SCHOOLS.

The Committee in visiting the schools the past year have endeavored to ascertain their real condition, and counsel and encourage both teachers and scholars. In some Districts teachers and pupils labor with discouragements that ought not to exist. In some localities the school houses are a very great bar to the improvement of the schools. Old and young are affected more or less by their surroundings. If children are crowded into a small room, surrounded with dark and gloomy walls, and compelled to sit on seats which cramp and almost cripple them, their patience and power of endurance must be very great, if they are the quiet obedient pupils the teachers desire. In some Districts but little interest is manifested by the parents. Generally, children are interested in what interests their parents. If they are not careful and particular that their children should be regular and prompt in their attendance, or if they do not counsel them in regard to their behavior, and seek to impress their minds with the importance of improving their time and opportunity,—what will be the result?

Children reason, and often plausibly, if not correctly. In this case, generally, they decide, our parents are but little interested in this matter; they are older and know more than we do, and it will make but little difference whether we obtain an education or

not. There must be deep feeling, earnest and energetic action on the part of parents, before our schools will be what they ought and may be.

But your Committee rejoice to know that there are encouraging features. Some parents are interested, and commendable efforts are put forth to advance the interests of their children. As a whole the schools have been in a better condition the past year than the preceding.

Permit your Committee to join with your children in asking an improvement in the school houses. Make them sufficiently large and commodious. It will greatly encourage the "little folks," if you will give them pleasant, well seated school-rooms. They will pay you abundantly. It is one of the best investments you can make.

### CHANGE OF READING BOOKS.

It was announced in the last year's School Report that the reading books would be changed: substituting Hillard's for Sargent's. That change has been effected; giving to the children about one hundred dollars worth of new books for old ones; a majority of the old were worthless, except their value as old paper. The Committee regard the new books as good ones, and calculated to promote the interests of the schools. In our opinion we find we are not alone, as we learn the School Committees of Boston, Cambridge, Plymouth and Kingston have adopted them.

### MONTHLY REPORTS.

We designed what we have written of the "Monthly Reports" issued in District No. 11, to encourage other teachers to pursue the same course. We would recommend the teachers to adopt this plan, assured they will derive great benefit therefrom.

### JUVENILE DEPARTMENT.

Our young friends perceive we have been writing about them, but not to them. But while we most earnestly desire to interest

others in your behalf, we would also seek to encourage you to make greater efforts the coming year. Do you ask—what can we do? We answer, resolve to do what you can, and to be what it is possible for you to be. The first thing is to obtain an education. Remember that merely going to the school house, and spending a given number of hours each day of the term, is but a small part of what you have to do. You are to work, and sometimes it will be hard work to master your lessons. But don't on this account be discouraged, or think of giving up. Just think, this lesson has been learned, this problem has been solved by others; shall I give it up and say, I CANT? No! I will try until I succeed.

Then be very regular and prompt in your attendance. When in school be careful to obey the rules and regulations of your teachers. Seek to do this, and you will find a new interest springing up within you continually, and the work of the school will become a pleasure.

Now as our parting salutation, we say to our juvenile friends, do all you can to help yourselves, and we will give you all the encouragement, and do all we can to assist you.

W. R. TISDALE,	} Committee.

Huldah Hunt,	81 "	Wm. H. Sherburne,	13 "
John Joice,	69 "	Otis H. Sherburne,	10 "
Peleg Sprague,	81 "		

### DEATHS IN THE ALMSHOUSE THE PAST YEAR.

Jacob Churchill, July 12 ; Warren Brewster, Aug. 16 ; Sarah Alden, Sept. 3 ; Bradford Sampson, Dec. 29 ; Ann Churchill, Feb. 10 ; Samuel Peterson, Feb. 15.

There has been raised the past year on the land connected with the house, crops sufficient to supply the inmates during the summer and autumn ; also, harvested for the benefit of the house, the following amount of produce :

Half ton English hay, 10 bushels corn, 108 bushels potatoes, 17 bushels turnips, 8 bushels carrots, 3 bushels parsnips, 6 bushels beets, 2 1-2 bushels beans, 1 bushel onions.

There have also been some improvements made on the land connected with the house, by setting out fruit trees ; also, by the annexation of the homestead of the late Galen Weston, deeded by his heirs to the town of Duxbury, in consideration of expenses paid by the town for his support.

INVENTORY OF ARTICLES REMAINING IN THE  
HOUSE AND BARN, FEBRUARY 15, 1865.

1 1-2 barrels beef, 1 barrel pork, 125 lbs. ham, 91 lbs. lard, 425 lbs. dry fish, 24 lbs. fresh beef, 2 3-4 barrels flour, 8 bushels corn, 2 bushels meal, 30 gallons molasses, 158 lbs. sugar, 25 lbs. tea, 6 lbs. butter, 20 lbs. saleratus, 25 gallons vinegar, 1 1-2 barrels soap, 11 lbs. hard soap, 3 pecks salt, 1 lb. tobacco, 1-2 bushels beans, 35 bushels potatoes, 20 bushels small potatoes, 5 bushels turnips, 1 1-2 bushels parsnips, 2 1-2 bushels beets, 4 bushels carrots, 1-2 bushel onions, 1 dozen cabbages, 1 ton coal, 1 3-4 gross matches, 1 cow, 15 fowls, 1-2 ton English hay, 1 1-4 tons salt hay, 1-4 ton corn fodder, 50 lbs. scraps, 3 cords oak wood, 1 3-4 cords pine wood, 5 cords pitch pine wood cut on the alms house lot.

Amount valued at	\$573 20
------------------	----------

Being an excess of the amount Feb. 18, 1864, of \$323 20

The Board of Overseers have received and considered numerous applications for aid out of the house, many of which, as will be seen by the foregoing, have been relieved. The expenses of the house have been larger than was anticipated by the Overseers, on account of the high prices of all the necessaries of life the past year.

The Overseers have found it necessary to have a new furnace in the house, to make it comfortable for the inmates, at a cost of \$75 (unpaid). The fences and buildings are in need of repairs, and the Overseers would recommend an appropriation of \$300 for repairs and improvements.

We think it a duty from us to give the superintendent and wife a recommendation for their straightforwardness in managing the affairs of the establishment, and would respectfully recommend them to our successors in office.

All of which is most respectfully submitted.

CHAS. H. CHANDLER, } Committee of  
DAVID CUSHMAN, } the Overseers of  
THOMAS CHANDLER, } the Poor.

*To the Inhabitants of the Town of Duxbury:*

Your School Committee do not consider that much more is required of them in making their annual report than a statement of those details in regard to your Schools which the law renders it imperative upon them to make. They have been in office many years, and have, from the experience which they have had, made up their minds in regard to the condition of your Schools in the present and in the past, and what they have needed, and what they yet need, to place them upon an equality with Schools in the great majority of towns in the Commonwealth.

In the first place, there is not sufficient interest felt in them on the part of the citizens of the town. This is manifest at the annual meetings, when they are brought forward for action; and from the comparatively few who take the trouble to visit them to encourage the children and teachers, while the Schools are in session. The Committee have come to the conclusion that it is in vain to make and advocate any propositions for a change of system by the introduction of such measures as have been adopted in other towns and found to work with great practical benefit. In the second place, the school houses in the several districts are in a poor—not to say, in regard to some, as we truly may—a miserable condition. They are not only dilapidated, they are contracted, badly arranged, poorly ventilated, lighted and heated; and the desks and seats constructed without much regard to convenience, comfort and health. To many of the younger children, they are places of torture; fruitful in physical and moral distempers and diseases, and productive of a great amount of sickness and death

among the children confined therein so many hours in the course of a week. They do not require repairs ; they ought to be pulled down, and others, roomy, well ventilated and warmed, and made convenient, comfortable and attractive, erected in place thereof.

In the third place, there are too many Schools ; we do not say districts as there should be no districts. Some four number upon their registers about fifty scholars ; attendance, perhaps forty ; the others range from fifteen to thirty. A competent teacher will instruct a School of fifty with greater profit and interest than a School of twenty. One-third of the money, then, which is raised by the town, is wasted, if eight districts would result in a greater amount of instruction than twelve. Why, then, is not the district system abolished, if such a measure would secure better houses and better schools, as also a greater amount of instruction, both in quality and time ? We will not presume to answer these questions, as the explication we should give, although the true one, might not be pleasant or acceptable.

In the fourth place, the Schools require to be graded. This is the system adopted in all departments of industry and business, and would be equally beneficial in the Schools here, as it has been proved to be elsewhere. It has been, and will continue to be, impossible under the present arrangement to provide for the young people of the town all the facilities for an education of which the town has the easy means if the best practical course were pursued. The law requires that all the children of the State shall be provided with the means of six months schooling, at the least, in the common Schools, and that a High School, of the second grade, shall be maintained in a town of as many families as are contained in Duxbury. In the report of the Secretary of the Board of Education, for the present year, this town is returned as delinquent in this respect, as also some of the Schools for not having been kept the legal number of months. The proposition is made to withhold their apportionment of the interest of the School fund from towns which may be reported as violating the law in these respects.

In the fifth place, money enough is not raised by the town for

economical, not to say generous, support of the teachers and Schools, as they ought to receive. The income of the Surplus Revenue they no longer enjoy, as the principal has been absorbed in the expenses of the war. Paper currency is at a large discount, and as a matter of course, the means of living largely advanced, and the consumer is obliged to meet the deficiency. At a reasonable computation, then, the amount of money appropriated for the Schools for the year 1864—5 was not half that appropriated in years previous. If more than this proportion has been available, in the amount of schooling secured, it has come mainly, nay, wholly, out of the wages of the teachers, who have not been paid above the rate of former years, while their personal expenses have been doubled, and the wages of all other classes of laborers proportionally increased. Our Schools ought to be regarded as the objects of our greatest charities, both in respect to the pecuniary support, and the interest with which they are fostered. No other demand upon the public sensibilities should be allowed to take precedence of these, either in the support which they receive or the fostering interest which is bestowed upon them. They are among the objects of charity, which render the earliest and most bountiful returns. It is to be feared, nevertheless, that they are falling into the shade; that other objects are engrossing the public heart and claiming a bounty, not too great, unless these home nurseries and sanitary institutions are deprived of that need which belongs to them. It is the earnest desire and prayer of all, that the beneficent government of our country may be restored to its original character and authority over all the States of the Union; but what is the benefit of its restoration, if the people fail of that intellectual and spiritual training on which only it can securely rest.

Suffer your Committee, in the last place, briefly to call the attention of the people of the town to a subject, which some may regard as not within the limits of their duties, but which, notwithstanding, they regard as intimately associated with the progress and purpose of our common School system. We refer to the religious habits and sentiments in which the young are trained, and the examples with which they come in contact at home and abroad.

Are the public feelings and practices in regard to the religious institutions, such as they were at a former day, and such as they must become again if justice be done to all the power of the soul, and all that is included in the legitimate limits of education accomplished? The fathers of New England first established Schools of religion, and Schools for secular education followed, as they always will, where the moral and religious customs and sense of a people are based upon the purity and simplicity of the Gospel. If religious institutions are neglected, and the religious life, interest and character of the people suffered to wane, it will not be long before our Schools will be blighted, and in the end, the foundations on which our freedom and independence rest, not escape the contagion.

Much complaint comes to the ears of your Committee in regard to the vagrancy of the young in some of the districts in the town, not excepting those of tenderest age, who should never be allowed to wander away from the supervision and care of their proper guardians. Why are they suffered to run riot as they do, to the disturbance of social order and the annoyance of those who are disposed to keep the peace? The teachers of our Schools cannot be charged with the responsibility; neither is it in the power of our Churches to remedy the disorder. Indeed, the inhabitants of the town, in their corporate acts and restrictions can do no more than effect a temporary abatement of the evil. Police officers and regulations may restrain, but they cannot eradicate the nuisance. Appliances must go deeper if they are to be effective. Children must be morally and religiously trained at their homes; their proper guardians must keep them out of the streets; they must set them a good example on the week day and on the Sabbath, if they would consult their own peace and that of their neighbors. Example is the most potent educator in the land, and children will always reveal and expose the secrets of that home life under the blessings or the blight of which they live in the retirement of their own enclosures. Let parents and guardians then consider, whether they are doing their duty when they suffer their children to wander where and whither they please; whether they are setting the best example in neglecting the Sabbath and the private

and public duties of religion ; whether they are fostering reverence for themselves and sacred names and things by their own profane words and ways ; whether they are not, in the wrong they are thus doing to themselves, wronging the children whom they have brought into the world, and through them all who may come in civil or social contact with them.

In respect to the condition of the several Schools, Summer and Winter, during the year that has closed, the Committee have but little to say. They have almost without exception given so good satisfaction, that it would be invidious to institute comparisons. The opinion has been expressed that they seldom have been in better condition as a whole, and some have been conducted in a manner to leave little to be desired in the way of improvement under their present organization. The teachers have generally felt the responsibilities of the position which they have occupied, and have exerted their best energies and capabilities to meet them. They deserve much commendation as a whole, and it gives the Committee much pleasure to speak of them as they deserve. Some of the most successful and promising, have been re-engaged, and there can be no doubt that they will not be satisfied to rest upon the laurels already won, but will be disposed to set their mark yet higher, and aim at a success yet in their power to attain. The compensation they receive will be, as it has been, comparatively small ; but this will not be the only or the highest motive to prompt them to do their duty faithfully. The most gratifying reward they can receive will be the satisfaction to be derived from success in their calling, and the consciousness that they are leaving their impress upon the minds and hearts of the rising generation, to be trained under their efficient labors for those social and civil positions which they will soon be called to occupy. The Committee have reason to believe, that while they do all in their power to instruct and discipline the understanding, they will not forget or fail to improve the opportunities which their position so eminently offers for the moral and religious culture of their pupils.

---

### OUTSTANDING DEBTS OF THE TOWN.

Outstanding Bonds,	17,600.00
Interest on Bonds to Feb. 17, 1866,	313.86
Outstanding notes and interest up to Feb. 17, 1866,	3,373.11
Due the School districts,	884.25
Due the Highways,	482.20
	<hr/>
	22,653.42

### AVAILABLE MEANS TO PAY THE SAME.

Due from State on Family aid from Jan. 1, 1865, to Feb. 17, 1866,	2,813.80
Cash in hands of F. P. Sherman, Treasurer, 1865,	4,078.70
Uncollected Taxes in hands of F. P. Sherman, Treas- urer, 1865,	888.87
	<hr/>
	7781.37
Indebtedness of the Town,	\$14,872.05.

FEB. 20, 1866.—The undersigned, being an Auditing Committee chosen by the Town, April 18th, 1865, have examined the accounts of the Selectmen for the year ending Feb. 17th, 1866, and find them correctly cast and vouched for.

ELBRIDGE CHANDLER,  
GEORGE W. FORD.

## SELECTMEN'S ACCOUNT.

Of the \$17600.00 outstanding Bonds there is 1500.00 which matures on the first day of May, 1866, together with the Interest due on 17,600.00 from Nov. 1st, 1865, to May 1st, 1866, of 528.00, making 2,028.00 which is expected to be met at that time from funds now in the Treasury.

There will be due Nov. 1st, 1866, the Interest on the \$16100.00 Bonds then outstanding from May 1st, 1866, to Nov. 1st, 1866, 483.00, together with the 2000.00 Bonds, which mature May 1st, 1867, and the interest on the 16,100.00 Bonds from Nov. 1st, 1866, to May 1st, 1867, 483.00, making 2,966.00 to be provided for by assessment.

We are of the opinion that the outstanding Notes and Interest amounting to 3,532.20, Dec. 1st, 1866, can be met by family aid furnished by the Town in 1865, due from State Dec. 1st, 1866, and incorporate stocks taxed by the State and due the Town about that time

The Selectmen would therefore recommend the following sums to defray the expenses of the Town the ensuing year: Viz.

Schools,	\$2,000
Highways,	1,500
Support of Poor,	2,500
Deficiency of last year,	547
Incidental Expenses,	1,000
Town Debts,	3,000
	<hr/>
	\$10,547

All of which is most respectfully submitted.

SAMUEL ATWELL,	} Selectmen of Duxbury.
JAMES M. WESTON,	
CHAS. H. CHANDLER,	

## REPORT OF OVERSEERS OF THE POOR.

The committee appointed by the Overseers of the Poor, to report to the Town the expenses of supporting the poor, in and out of the Almshouse, with the cost of repairs on the Almshouse and out-buildings, submit the following report :—

" " " out of house,	540.21
" " " for repairs	283.33
" overdrawn, 1864, paid in 1865,	290.77
	<u>\$3253.13</u>

Whole number of Paupers now in Almshouse,	20
Smallest number at any one time,	17
Admitted during the year,	6
Died during the year,	2

The average number supported in the Almshouse, the past year, has been eighteen and ten-twelveths, and the expense, two dollars, eleven cents, and seven mills, a week for each person,

Otis H. Sherburn, has been bound out to Stephen Soule of Duxbury, to serve until sixteen years of age.

## INMATES OF THE ALMSHOUSE.

Olive Brewster,	age, 75	Huldah Hunt,	age, 82
Alice Bonney	65	Peleg Sprague,	77
John Baker.	52	Mary P Southworth,	52
Bradford Holmes,	59	Betsey A. Churchill,	41
Alice Lucas.	32	John Freeman,	44
Sarah J. Lucas,	6	Edgar Sprague.	17
Nancy Alden,	79	Wm. A. Standish,	68
Benj. Prior,	91	Benj. S. Waterman,	69
Abner Stetson,	70	Emma E Sherburn,	8
Wm. H. Simmons,	62	Sarah Sherburn,	4

The Overseers have presented to the Administratrix of the estate of Bradford Sampson a bill for his support by the Town, in the Hospital at Worcester. and Taunton, and the Almshouse in Duxbury to the amount of \$2376.10, which in the opinion of the committee, the estate is justly holden for.

There has been raised the past year, on the land connected with the house, crops sufficient to supply the inmates during the summer and autumn; also, harvested for the benefit of the house, the following amount of produce :

60 bushels corn, 120 bushels potatoes. 60 bushels turnips, 37 bushels carrots, 17 bushels beets, 9 bushels onions, 4 bushels beans, 2 bushels parsnips, 12 dozen pumpkins, 8 cwt. English hay; slaughtered 3 hogs, weighing 1416 lbs.

Inventory of articles remaining in the house and barn, February 15th 1866 :

50 bush. potatoes, 25 bush. small do., 25 bush. turnips, 1 bush. parsnips, 10 bush. carrots, 5 bush. beets, 2 bush onions, 4 bbls. soft soap, 125 lbs. ham, 3 bbls. pork, 7-8ths. bbl. beef, 4 galls. vinegar, 2 1-2 cords pitch pine wood, 1 1-4 cords white pine wood, 2 1-2 cords oak wood, 3 cords pitch pine wood cut on the Alms-house lot, 1800 lbs. coal, 210 lbs. sugar, 6 galls. molasses, 27 lbs. tea, 18 lbs. saleratus, 99 lbs. lard, 5 lbs. tallow, 61 lbs. fresh pork, 20 lbs. fresh beef. 13 lbs. butter, 1 bbl. flour, 375 lbs. dry fish, 1 1-2 bush. beans, 2 qts. kerosene oil, 1 qt. lamp oil, 1-8 gross matches, 1 box fine salt, 2 lbs. hard soap, 1 lb tobacco, 1-2 lb. snuff, 150 lbs. plaster, 37 bush. corn, 1 bush. meal, 2 bags fine feed, 1-2 ton English hay, 2 1-2 tons salt

hay & corn fodder, 1 cow, 18 fowls, 3-4 m. shingles, 70 post cuts,  
and 23 lights window glass.

Amount valued at	\$641.33
Being an excess of inventory of last year of	68.13

---

Mr. Chandler, the Superintendent, and wife, have managed the affairs of the Establishment to our entire satisfaction, and we would respectfully recommend to our successors in office to retain them in their present position.

All of which is most respectfully submitted.

CHAS. H. CHANDLER,	} Committee of the
SAMUEL ATWELL,	
THOS. CHANDLER,	
	Overseers
	Of the Poor.

---

Feb. 20. 1866. The undersigned being an Auditing Committee chosen by the Town, Apr. 18, 1865, have examined the accounts of the Overseers of the Poor, for the year ending Feb. 17, 1866, and find them correctly cast, and properly vouched.

ELBRIDGE CHANDLER,  
GEORGE W. FORD.

# ANNUAL REPORT 12

OF THE

SUPERINTENDING

## SCHOOL COMMITTEE

OF THE

## TOWN OF DUXBURY,

FOR THE YEAR 1865-6.

---

PLYMOUTH:  
Memorial and Rock Press.  
1866.

## REPORT.

---

*To the inhabitants of the town of Duxbury:*

In the discharge of their duty, your Superintending Committee would respectfully submit the following report:

All changes are not necessarily improvements, but in order to make improvements there must necessarily be a change. If the rising generation is to be advanced in knowledge and virtue, there must be a change from bad to good, or from good to better. If our fathers have done good for us, we must do better for our children, if we would make improvements on their labors. If the former worshipped God in rough, unpainted and unplastered buildings, is it not an improvement in their descendants to be able to worship the Most High in well-finished and comfortable edifices? Is the well-painted and commodious school-house no improvement on the rough, unfinished shed, or log cabin? Does not the present generation owe a debt to posterity, on the Christian principle "freely ye have received, freely give?" How can this debt be most justly paid? Let us furnish our children with neat, attractive and commodious school-houses, able, moral, and competent teachers, suitable books and apparatus, and other conveniences for the school-room; and as the Town furnishes the money for the schools, and a Superintending Committee, let that committee retain the authority which the law gives them. The law gives the Committee *now* the entire disposal of your portion of the school

fund, for school purposes, twenty-five per cent. of which they can apply for the purchase of books of reference, maps and apparatus for the use of the schools, yet they have never exercised that authority, because the Town has inadvertently otherwise expended it for the schools. If the Prudential Committee neglect to procure a teacher, when authorized by the Town, or to procure a suitable school-room, the law requires the general Committee to perform this duty. If the Committee can lawfully disburse a part of your money for school purposes, why not give them authority to disburse the whole for such purposes? If they can contract with the teachers in some cases, why not in all? A divided service lessens responsibility.

There are twelve school districts, and twelve school-houses, Suppose each district raises by tax, once in five years, fifty dollars, to meet all the repairs on their house; the assessing and collecting that sum costs, say fifteen dollars; in ten years it would cost thirty dollars, and on twelve school-houses, three hundred and sixty dollars (\$360) to raise the twelve hundred (\$1,200). Now, what benefit is this \$360. to the schools, or the houses? Is it not nearly a dead loss? whereas if the same amount was assessed and collected by the Town, the expense would have been nothing, except the Treasurer and Collector's commission; besides, there would be a more equal distribution of the burden.

If the Town had the building of the school-houses, they would be constructed after the most approved model, with all the necessary conveniences, and located where they would also add beauty to the neighborhood. Now, each district constructs its house according to its real, or supposed ability, and with a view to the least expense consistent with the required necessity. Hence the variety of location, plan and repairs.

If the general Committee had the entire control of the whole subject, together with the apportionment of the school appropriation, a more equal amount of schooling could be provided to each child in the Town. Now, some districts have five and

a half months, others eight and a half. Some teachers with fifty-seven scholars, have twenty-eight dollars per month ; some with sixty-five, have twenty-six dollars ; some with seventeen, have eighteen dollars, some with twenty-four, have twenty dollars per month. For these, among other reasons, we recommend the abolition of the district system in this town, as we believe it to be a kind of change which will be a great improvement on the present system.

### DISTRICT NO. 1.

This school-house is the largest, and the arrangements for the convenience of the teacher and scholars, are the best of any in the town. It now needs some little repairs, such as painting, white-washing, raising up, &c., and raising the earth at the entrance, to keep it in good condition. If a few trees were set out on each side for shade, it would add much to its beauty.

The school has been under the charge of Miss Emily W. Sears for five or more consecutive years, which is proof conclusive of her appreciation by the Committee and the District. Near the close of the Winter term it was reported to the Committee, that there was a general feeling, on the part of the parents, that a change of teachers would benefit the school ; that there was a perceptible change from its former high rank ; but your committee had made no such discovery, and were happy to learn that, at their annual meeting, the District voted to retain her ; nineteen for, and two against.

### DISTRICT NO. 2

This school-house is not so convenient for the teacher and scholars as it should be. There are more children in this Dis-

trict that attend school, than in District No. 1, yet the room is about one-half or one-third smaller. There is no unnecessary room in the former school-house. This District, or the Town, would do well to re-model this house after the pattern of District No. 1. If this building was designed for graded schools, it can hardly be conceived how a poorer arrangement could be made. In the large room one of the black-boards is so high as not to be conveniently reached from the floor, and the other, where it cannot be well seen from the teacher's desk. No seats or desks should touch the walls. A free passage between the seats and the walls is needed for the teacher and scholars; black-boards placed between the windows, and opposite the teacher's desk. The small apartment is worse; there are no conveniences for the teacher or pupils. The teacher has no desk deserving the name, and one broken chair,—the children crowded into one end of a narrow room, with one alley to accommodate three or four children on a seat on each side of it, when, if one is called out, the others must remove to give room. The stove is so placed as to overheat many of them, and in summer they are so boxed up, as almost to produce suffocation. There is but one entrance and egress to both apartments,—no place for the clothing, except on the wood-pile, in the north end of a narrow entry. We do not wish to exaggerate, and we appeal to the District if there is not "more truth than poetry" in the statement. If no alteration can be made at present, then the building needs the plane, and the white-wash brush, and chairs, if nothing more.

Miss Mercie J. Packard had charge of all the scholars in this District during the Summer term, and her labors were entirely satisfactory. Mr. George T. Chandler taught the larger scholars in the Winter, two and a half months, with good success. Mrs. Mary J. Simmons had the care of the small children two and a half months in the Winter, and, we believe, did all she could.

## DISTRICT NO. 3.

This school-house was modelled after the one in District No. 1 but a few years since, and was put in perfect order. It is now almost a complete wreck. Blame must be attached somewhere. It has not all been done this Winter. When a building begins to go to decay, and no pains are taken to repair it, it soon goes to ruin. We are happy to learn that the District has voted to restore it to its former beauty this Spring. Would it not be good economy to employ some suitable person in the vicinity of the school-house, to have the care of it, in the absence of the teacher, and when the school is in operation hold him or her accountable? Much of the injury is done during the intermission. When the teacher boards at a distance, or out of sight of the building, we advise that the teacher stop with the children in the school-room, at noon, and shorten the intermission to one-half the usual time. She then can see to the house, and who does the mischief.

Miss Elizabeth R. Paulding, a beginner, had charge of the school during both Summer and Winter terms. She had fifty-six scholars in the Summer, and we were agreeably disappointed at her success. She was self-relying and persevering, and the school appeared very well at our visitations, and at its close. The Winter school was not so successful. A class of larger boys attended, some of whom were disinclined to yield a willing acquiescence to her rules. Mostly in her absence, windows were broken, and other damage done to the building. After a while she was enabled to find out who had done the mischief, but the Prudential Committee had gone to sea, and the windows were not repaired as soon as they should have been. Directly the scholars began to leave the school, and your Committee thought it best, after consulting with a number of the parents, to close it. If this had been the first time there had been trouble in this school during the Winter term, some blame might attach to this teacher; but as it has been of

so frequent occurrence heretofore, it would be hardly just to lay too much upon her. She has many qualifications for a good teacher. A little more experience will enable her to become a more successful one.

#### DISTRICT NO. 4.

This school-house is tolerably convenient, yet it is susceptible of great improvement. There are as many scholars as in District No. 1, and not so much room. This building needs thorough repairs. The painter, carpenter and mason, could make this building an ornament to the neighborhood, and a credit to the District. No modest person should enter it, until after the carpenter has been there. Mrs. Mary R. Crocker taught the Summer School, profitably for the District, and creditably to herself. She ranks well among our good teachers.

Miss Alice J. Hatch, from District No. 6, had charge of the Winter term. This school was shortened two weeks, as half of the scholars left school. A disease, believed to be contagious, had been in the school some time, before it became known to the Committee. The school closed with 22; the whole number was 48. But little progress was to be expected as a whole, yet in a number of cases there was good evidence of improvement.

#### DISTRICT NO. 5.

The school-house in this District needs re-modelling after the plan of Nos. 1 and 3. No convenient accommodations for the teacher, and very poor ones for the children, and none for spectators, or the Committee. It is not strange that the parents and friends do not frequent our schools oftener than they do. The very best furnish but poor accommodations for them, and many provide none at all. Let our school-houses be large

and commodious, with suitable chairs, or seats, for half a dozen spectators, and let the room be kept clean, and the benches and walls free from vulgar knives and obscene chalk, so that delicacy and refinement can enter without offence, and no doubt your schools will be more frequented, and the character of your children more pure and chaste. These suggestions are not applicable to this District particularly; but to nearly every one in the town.

Miss Bethia H. Cobb taught the Summer school. The Winter term was taught by Miss Mercie J. Packard, from District No. 2, whose labors were very acceptable to the parents, and were duly appreciated by the Committee.

#### DISTRICT NO. 6.

This school-house is a disgrace to a civilized and respectable community, (as it is well known this District is). It is not worth repairing. The general plan is well enough, except it wants side aisles, and a place for the black-board in front of the teacher's desk. The whole building, including the entry, is none too large for even the small number of scholars who attend school. As it is, and has been for years past, it is a mere mosquito trap in summer, and a most convenient fever trap in winter. It is remarkable that half the children have not died of colds and fevers, from exposure. It is not strange that this school is so backward. The best thing to be done, is to abolish the District. In Summer, the school was under the tuition of Miss Alice J. Hatch, and was continued until the money was expended. No complaint has been made that her labors were not acceptable to the District.

#### DISTRICT NO. 7.

This school-house should be reconstructed in its internal arrangements, after the model of Districts Nos. 1 and 3. Side

aisles, black-boards in sight of the desk, &c., and if nothing more is done, decency and neatness require the plane, paint and white-wash.

Miss Jane M. Pierce has taught the Summer and Winter schools, and ranks high among our successful teachers.

#### DISTRICT NO. 8.

This school-house is not well located. It is too nearly surrounded by water and salt marsh, too much exposed to cold and storms in winter, and greatly annoyed with meadow flies in the Fall, with a very contracted play-ground, unless the highway is included. Standing partly over the water or marsh, it is not favorable to health. This building requires alterations to correspond to the plan of District No. 1. The carpenter, mason, and painter can make the improvements, without a very great expense, and all will be better satisfied when it is done.

Mr. Nathan T. Soule has faithfully and well taught the school Summer and Winter. No complaint or dissatisfaction has come to the knowledge of your Committee. The Winter school was prolonged four weeks by the voluntary contributions of the friends in the district, and the teacher gave one week in addition.

#### DISTRICT NO. 9.

This school-house is pretty well arranged for so small a school. The average number of scholars for both terms, is but thirteen, still it would be more convenient if the aisles were altered, as suggested in some of the other Districts, and some other repairs made, such as white-washing, repairing the paper &c. before it becomes worse. This is the only school-house that is suitably provided with chairs for visitors. It would be good economy for the Town to abolish this district; they would

save much more than the appropriation. The Tremont and Mill Brook schools united, would make a school about as large as Districts 1, 2, 3 and 4, and could be taught by one teacher as well.

The Summer and Winter terms were taught by Miss Georgie M. Loudon. No teacher can accomplish much in so small a school. In one of forty or fifty scholars, properly classed, there is some ambition to excel; but where there is but one or two in a class, there is little effort put forth, and little progress made.

The teacher has been faithful and kind, and has the good will of the parents and children; but the improvement is not so apparent as is desirable, except in a few cases.

#### DISTRICT NO. 10.

The school-house is comparatively new; its arrangements were after the model of Districts 1 and 3; it was well painted and the desks stained, and the children were delighted with their new and clean accommodations, and have taken very good care of it up to this time. Much interest was manifested in securing the services of the best of teachers, and they have been generally very successful. The children have advanced from an ordinary to a high rank.

Mrs. Abbie F. Blackman, an energetic, prompt and ready teacher, had the care of the Summer school, and good order and good proficiency were apparent.

The Winter school was taught by Miss Mary Abbie Tilton. She was presented for examination on Saturday evening. The school was to commence the following Monday. There was but little time for examination. It would not do to disappoint the whole District. All the best teachers had been taken up, and the Prudential Committee might not succeed in securing another, so that it was thought best to give her a certificate. This school was not quite up to the rank it had held, and the school-room was less clean and neat than it had usually been.

## DISTRICT NO. 11.

Miss Mercy M. Delano taught the Summer term, who we regret to say, was obliged to leave at the close of the Summer school, on account of her failing health. For many years she has had the care of this school, and has ranked among the first. Her large experience, her lady-like deportment, her quiet self-possession, mildness of manner, tact in teaching, and ease and gentleness in maintaining good discipline, together with her general care of the morals of her pupils, their books, and the school-room, entitle her to the high rank assigned her.

Mrs. Mary A. Crocker, from District No. 4, taught the Winter school. She has the ambition, fidelity and perseverance to equal the success of her predecessor.

This school-house is in need of re-modelling after the plan of Districts Nos. 1, 3 and 10. The plane, paint and white-wash will improve this building greatly, and give the children a new impulse in learning; and, no doubt, awaken in them a pride to keep it uninjured from the knife for many years.

## DISTRICT NO. 12.

This school-house has recently been much improved, and is now in good condition and convenient for the children, except it wants the side aisles and a better accommodation for clothes and hats. Miss Anna T. Keen commenced the Summer school. She was a promising teacher, but after a few weeks her health began to fail, and she was obliged to relinquish it to Miss Georgie M. Loudon, from District No. 9. Miss Loudon kept the term out, and gave as good satisfaction as could be expected under the circumstances.

The Winter term was under the care of Miss Abbie P. Joselyn. This school is too small (average 16) for a smart, active teacher. Give her forty scholars, so that all her time will be required to attend to them, and her school will exhibit much

greater progress. Miss Josselyn will take a very respectable rank. after a little more experience.

If this District and No. 5 could be united, they would form a school about as large as Nos. 1, 2, 3 and 4, and one teacher could as easily govern them; and what would be saved in expense would prolong the school some months.

It sometimes happens that contagious disorders get into a school. No teacher, knowing of such a disease, should allow a child so afflicted to remain in the school an hour; and it is the duty of those who have an interest in the school, to give notice to the Committee at once, and especially is it the duty of the prudential committee. Gen. Stat. chap. xli, sec. 8. says the School Committee shall not allow any child to be admitted to or connected with the public schools who has not been duly vaccinated; and it is urgently recommended to those whose children are liable to be excluded from school, to neglect the matter no longer.

You may now ask how have the children of the Town progressed in their studies during the past year? Can you discover any improvement in their manners or morals? It is no easy matter to discriminate so as to answer with certainty. If a general attendance at school, good recitations, and good behavior, and the cards kept by some of the teachers, and the rolls of honor are any criterion, we believe you will agree with us that the answer to both enquiries must be in the affirmative.

The Committee, at their visitations, have found much to commend, and but little to censure. But little corporal punishment has been found necessary.

A neat, commodious and well-painted school-house has great influence in forming the character of youth to habits of neatness. They take much pride in keeping it clean and inviting, more care is taken of their desks and books; also of their persons and apparel. Besides, the moral effect of a newly prepared house is almost as great on the parents as on their children. It would be natural for them to say: "My children, you are now going to school, in a nice, new school-house, you must try to keep it so;

wash your face and hands, comb your hair, brush your clothes and take good care of them and your books. Don't play in the dirt and carry it into the school-house ;" thus inculcating good habits in the minds of their children at a tender and impressible age.

On the other hand, when the house becomes old, the walls smoky and battered, paper torn off, floor worn through, desks cut, and the building, outside as well as in, defaced by vulgar and obscene knives, is it strange if children become slovenly in their dress and vulgar in speech, and also in other respects become assimilated in their habits to the place they occupy?

Early impressions, life-lasting, should be good.

The law makes it the duty of the prudential committee to keep the school-house in good repair at the expense of the District, and this does not require a previous vote of the District, directing him to do so ; neither can he apply any portion of the school money for the purpose.

The Hon. Horace Mann, the first Secretary of the Board of Education, in his tenth Annual Report, page 52, says : " If a window frame is broken, if a blind loses a hinge, or a fastening ; or a door is without a latch, or the plastering has fallen from the walls, or the room needs whitewashing, or is tight and without a ventilator, or the seats need repairs to make them comfortable, or if the windows have neither blinds nor curtains ; in all of these, and all similar cases, it is the duty of the prudential committee to repair the injury or supply the defect. So in regard to chairs, shovel and tongs, andirons, brooms, mats, door-scrapers, sink, water pails, dippers or tumblers, &c. Emphatically, if the school-house be without an appendage which modesty and decency requires, and which may prevent unchaste thoughts, and indecent exposures from maturing into unchaste life, it is believed to be the immediate duty of the prudential committee to supply it."

Now how many of our school-houses are furnished with these conveniences? Let each district examine its house and answer the question.

Among the duties of the prudential committee, Mr. Mann says, page 55, he is bound, when authorized by the Town to contract with the teacher, "to give the Superintending Committee *due notice* of the time when the school will begin, and also of the time when it will close, so that they may visit it according to law." This is seldom done. This notice is usually obtained from the teachers, and it often puts the Committee to much embarrassment, to so arrange the day of closing the school as to prevent two or more schools closing on the same afternoon. Again, "he shall give the Superintending Committee the *earliest* information of any danger from any cause, within his jurisdiction, which may impend over the school, and threaten its usefulness," It is undoubtedly his duty, if the windows, blinds, doors or benches, on the outside or inside of the building are broken or injured, to see to it at once, and have it repaired. On hearing of any disturbance in or about the house, if of a serious nature, he should give immediate notice to the general committee, that the difficulty may be removed without delay.

It is sometimes the case that parents or guardians feel aggrieved at the punishment their children have received, at the manner the school is governed, or at the kind of books furnished. In either of these, or similar cases it is better to make the complaint to the general committee, than to have an angry controversy with the teacher. She cannot settle the matter, and oftentimes it would impair her efficiency in managing her school. Whoever seeks to influence the minds of children, in the school-room or out of it, against the teacher, or the prescribed order of the school, embarrasses the teacher, impairs its usefulness, and prevents in any measure its success. Our statutes hold such persons liable to prosecution, and if found guilty subjects them to fine or imprisonment.

There is another serious evil, which works great mischief, if it does not entirely destroy the usefulness of a school, and which has heretofore been noticed in our reports. If the teacher is unpopular, or fails in government, the children are withdrawn, or

permitted to leave the school. This is unwise, to say the least. If a child is ambitious to learn, he can gain much in a poor school, and should not be removed therefrom. If he has no relish for his books, that is a good reason why he should be kept at school, else he will be deprived of the means of knowledge which the school furnishes. He can get little learning to fit him for usefulness in the streets, he may gain much from the recitations of other children in the school. The committee would not knowingly retain an incompetent teacher.

In case contagious disease gets into a school, let those afflicted be kept at home, and not let the school be broken up, or the appropriation fail to accomplish its end. In no case should well children be deprived of the opportunity of learning furnished them at the public expense.

---

February 18th, 1867.

The undersigned, being an Auditing Committee chosen by the Town, April, 1866, have examined the accounts of the Selectmen, for the year ending February 18, 1867, and find them correctly cast and vouched for.

ELBRIDGE CHANDLER,  
GEO. W. FORD.

## SELECTMEN'S ACCOUNT.

Of the 16,100.00 outstanding Bonds there is 2000.00 which matures on the first day of May, 1867, together with the interest due on 16,100.00 from Nov. 1st, 1866, to May 1st, 1867, of 483.00, making 2,483.00 which is expected to be met at that time from funds now in the Treasury.

There will be due Nov. 1st, 1867, the interest on the 14,100.00 Bonds then outstanding from May 1st, 1867, to Nov. 1st, 1867 423.00, together with the 2000.00 Bonds which mature May 1st, 1868, and the interest on the 14,100.00 Bonds from Nov. 1st, 1867, to May 1st 1868, 423.00, making 2,846.00, to be provided for by assessment.

The Selectmen would therefore recommend the following sums to defray the expenses of the Town the ensuing year: Viz.

District Schools,	\$2,000
Grammar,	500
Highways,	1,500
Support of Poor,	2,500
Incidental Expenses,	1,000
Town Debts,	3,000
	<hr/>
	\$10,500

All of which is most respectfully submitted.

SAMUEL ATWELL,	} Selectmen of Duxbury.
GEO. B. STANDISH,	
GEO. BRADFORD.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

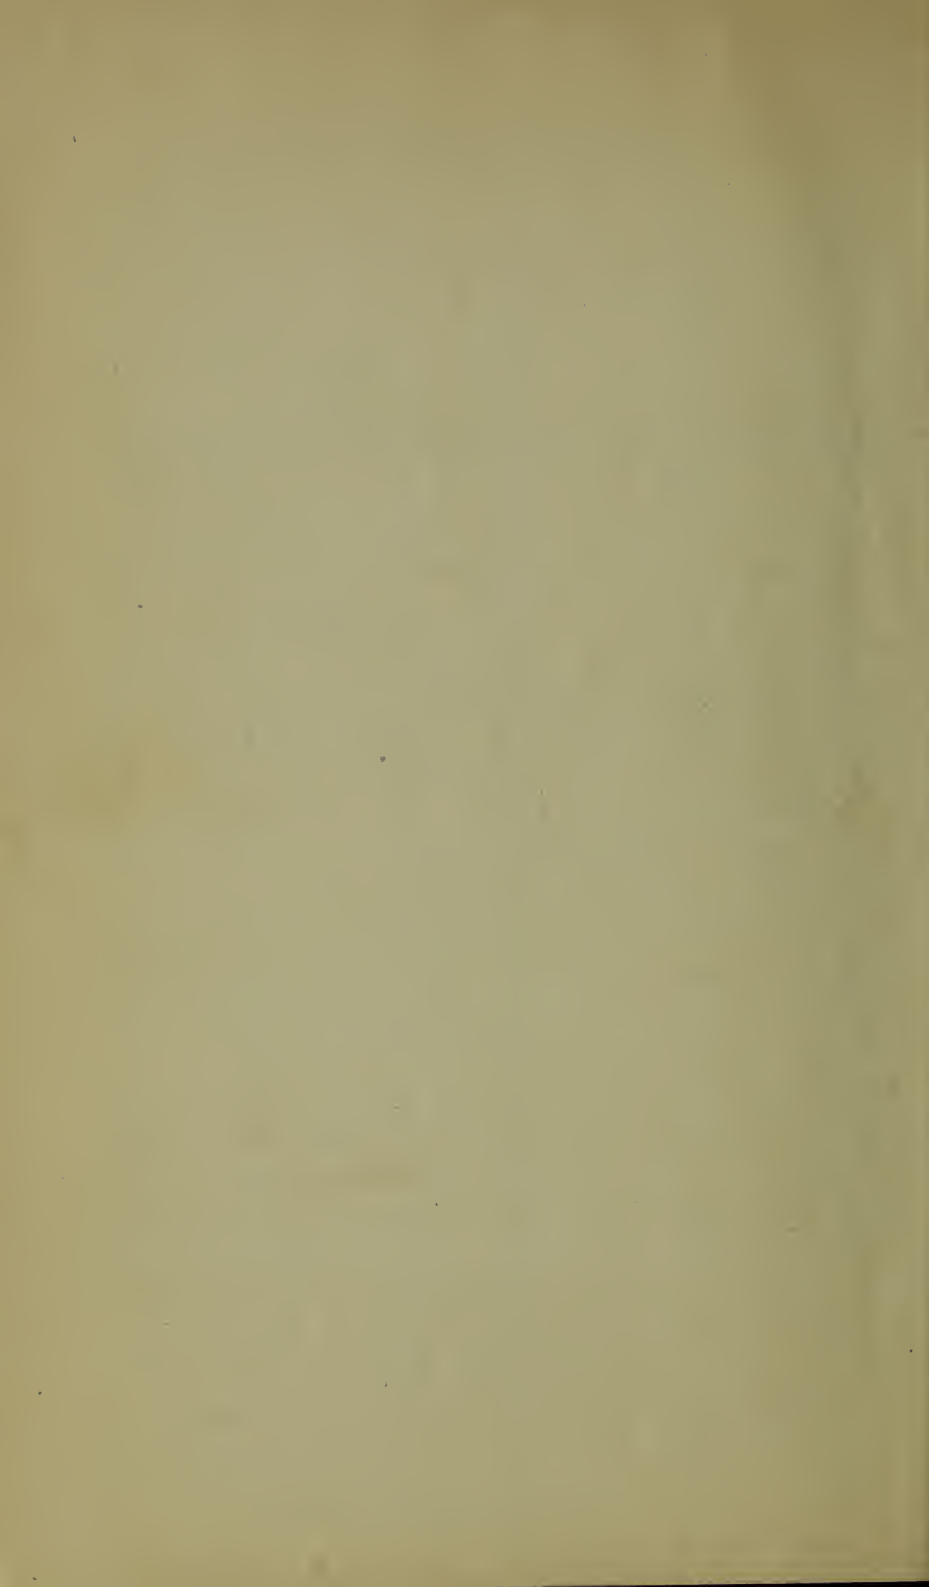

TOWN OF DUXBURY,

FOR THE YEAR

1867--8.

---

PLYMOUTH:  
PLYMOUTH ROCK STEAM PRESS.  
1868.

## REPORT.

*To the Inhabitants of the Town of Duxbury:—*

Your School Committee present a brief report for the school-year 1867-8. Although it is in accordance with the Statute law of the State and the usages of the past, yet the statement of the Committee is read and considered, probably, but by comparatively few; and consequently its influence is very limited in advancing the interests of education in our midst. It matters not how much interest may be felt by the Committee, or effort put forth, if they are not encouraged and assisted by those who have the most special and immediate interest in the pupils, they must fail to accomplish a result so much to be desired in educational enterprise.

The law of the Commonwealth compels the Town to keep a school, six months in the year, in each of the twelve Districts, or subjects the Town to a fine of twenty-five hundred dollars if there is failure thus to do.

Unfortunately, in about half of these Districts there are but few pupils, and in the distribution of the money raised for school purposes, the amount apportioned to them is necessarily small. But small as the means are, the demand is, that the Committee shall furnish a competent teacher to meet the legal demand.

This is to demand an impossibility, or competent teachers must devote to the town a part of what is really due them for their services. In this connection we beg leave to say, if there is not more money raised for the support of the schools, it

would greatly relieve the Committee to give the employing of teachers to the Agents of the several Districts.

There should be in each of our school-houses in the town at least nine months school in the year; but it would be utterly impossible, with the amount of money appropriated in the past. Hence we cannot fail to discover where the responsibility rests if the children and youth are compelled to suffer by a six months' vacation in each year.

No better investment can be made by the Town than by a liberal appropriation to support the public schools. But assured, by the experience of the past, that suggestions and recommendations of the Committee avail little more than the "beating of the air," we desist, and briefly state the result of the school year.

#### DISTRICT NO. 1.

Length of school,		7 $\frac{3}{4}$ months.
	Summer, 3 mos.	Winter, 4 $\frac{3}{4}$ mos.
Wages of teacher per month,	" \$24.00	" \$24.00

#### DISTRICT NO. 2.

Length of school,		8 months.
	Summer, 2 $\frac{1}{2}$ mos.	Winter, 4 $\frac{3}{4}$ mos.
Wages of teacher per month,	" \$24.00	\$28.00

#### DISTRICT NO. 3.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$30.00	" \$40.00

#### DISTRICT NO. 4.

Length of school,		8 $\frac{1}{4}$ months.
	Summer, 5 mos.	Winter, 3 $\frac{1}{4}$ mos.
Wages of teacher per month,	" \$24.00	" \$26.00

#### DISTRICT NO. 5.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$20.00	" \$26.00

## DISTRICT NO. 6.

Length of school,		7 months.
	Summer, 3 mos.	Winter, 4 mos.
Wages of teacher per month,	" \$18.00	" \$20.00

## DISTRICT NO. 7.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$24.00	" \$24.00

## DISTRICT NO. 8.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$20.00	" \$20.00

## DISTRICT NO. 9.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$17.00	" \$18.00

## DISTRICT NO. 10.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$16.00	" \$17.00

## DISTRICT NO. 11.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$24.00	" \$24.00

## DISTRICT NO. 12.

Length of school,		6 months.
	Summer, 3 mos.	Winter, 3 mos.
Wages of teacher per month,	" \$17.00	" \$18.00

## HIGH SCHOOL AT ASHDOD.

Length of school,		9 months.
	Summer, 3 mos.	Winter, 6 mos.
Wages of teacher per month,	" \$28.00	" \$28.00

## HIGH SCHOOL AT MASONIC HALL.

Length of School,		9 months.
	Summer, 2½ mos.	Winter, 6½ mos.
Wages of teacher per month,	" \$28.00	" \$28.00

It is not our purpose to offer extended remarks in regard to the schools, but to state briefly our opinion.

The teachers have generally been successful in their endeavors. The old and tried teachers have sustained their former reputation for ability to teach and ability to discipline. Honorable mention should also be made of five new teachers, who were educated in our own schools. We think the result of their efforts would compare favorably with others who have established a reputation as successful teachers.

In some of the schools there has been manifested, on the part of some pupils, a spirit of insubordination, and also, in some instances, an unwillingness to close application to their studies. We regret the fact of these occurrences, and most earnestly hope that the like may never occur again. In general, the scholars should be commended for the progress they have made in their studies, considering the limited opportunities given them.

#### THE HIGH SCHOOLS.

These, to us, are a new enterprise. The law of the Commonwealth obliges the Town to sustain a "High School of the second grade" nine months in the year, or to be subjected to a fine of twenty-five hundred dollars for each failure. To locate this school for the specified time—nine months—in any given locality, would fail to accommodate but few of the pupils. To fix on two localities, with a school four months and a half at each locality, would fail to accomplish half the desired results.

Last spring, in company with the Hon. Stephen Gifford, the Chairman of the Committee consulted the Hon. Joseph White, Secretary of the Board of Education, in regard to employing female teachers. He unhesitatingly affirmed that it would meet the demand of the law, and that they might be employed.

This fact was stated to the voters assembled in Town Meeting, and it was voted to establish two High Schools: one at the west part of the town, the other at the east.

These schools have been conducted by competent female teachers, and the result has been, we think, all that could have been reasonably expected, considering the embarrassments under which they have necessarily labored. The Committee were under the necessity of renting halls for this purpose, and these only furnished by the pupils. In order to successful effort in this direction, good school-houses are a necessity.

---

## ROLL OF HONOR.

### DISTRICT No. 2.

#### *Summer.*

Charlie H. Brewster,  
 Laura H. Freeman,  
 Willie W. Brewster.

Carrie M. Brewster,  
 Eddie W. Simmons.

### DISTRICT No. 3.

#### *Summer.*

Ida F. Bailey,  
 Nellie B. Chandler,  
 Geo. H. McNaught,  
 Mabel Loring,  
 William A. Cushing.

Alice M. Lucas,  
 Freddie L. Chandler,  
 Fannie W. Loring,  
 Rebecca A. Chandler,  
 George Weston.

### DISTRICT No. 4.

#### *Summer.*

Desiah F. Glass,  
 James H. Ford,  
 Willie B. Gardner.

#### *Winter.*

A. Elmore Chandler,  
 Henry B. Harriman,  
 Harry A. Randall,  
 Ida M. Chandler,  
 Imogen Chandler,  
 Desiah F. Glass,  
 Nancie C. Glass,

1, 1867, to Feb. 1, 1868,				\$2,773 00
Cash in hands of Treasurer of 1867,				4,583 59
Uncollected taxes in hands of Collector,				2,295 92
				<u>\$9,652 51</u>
Indebtedness of the town.	-	-	-	\$10,189 64

## SELECTMEN'S ACCOUNT.

Of the \$14,000 outstanding bonds, there are \$2,000 which mature May, 1868, together with the interest due on \$14,100 from Nov. 1, 1867, to May 1, 1868, of \$423, making \$2,423, which is expected to be met at this time from funds now in the Treasury. There will be due Nov. 1, 1868, the interest on the \$12,100 bonds then outstanding, from May 1, 1868, to Nov. 1, 1868, \$363, together with the \$2000 bonds which mature May 1, 1869, and the interest on the \$12,100 bonds from Nov. 1, 1868, to May 1, 1869, of \$363, making \$2,726 to be provided for by assessment.

The Selectmen would therefore recommend the following sums to defray the expenses of the Town the year ensuing :

District schools,	-	-	-	-	\$2,000 00
Grammar Schools,	-	-	-	-	500 00
Highways,	-	-	-	-	1,500 00
Support of Poor;	-	-	-	-	2,500 00
Incidental expenses,	-	-	-	-	1,000 00
Town debts,	-	-	-	-	3,000 00
					<hr/>
					\$10,500 00

All of which is most respectfully submitted.

SAMUEL ATWELL,	} <i>Selectmen</i>
GEO. B. STANDISH,	
GEORGE BRADFORD,	
	<i>of</i>
	<i>Duxbury.</i>

With regard to the general management of the Almshouse, and the care taken of the inmates, we have the same good report to make as heretofore: that the duties of the Superintendent at the Almshouse and Farm have not been neglected. The Overseers deem it proper to say that their views and wishes have been faithfully carried out by Mr. Chandler, and that the manner in which he has discharged his duty the past year, and the practical skill in medical and surgical operations has been no less gratifying to the Board than advantageous to the Town.

All of which is respectfully submitted.

SAMUEL ATWELL,	} <i>Overseers</i>
GEO. B. STANDISH,	
GEORGE BRADFORD,	
	<i>of the</i>
	<i>Poor.</i>

The undersigned, being an Auditing Committee, chosen by the Town, April, 1867, have examined the above accounts, and find them correct and properly vouched.

ELBRIDGE CHANDLER,	} <i>Auditing</i>
GEORGE W. FORD,	
	<i>Committee.</i>

Feb. 25, 1868.

	<hr/>
	\$15,713.18

Of the \$12,100.00 outstanding Bonds, there is \$2,000.00 which mature on the first day of May, 1869, together with the interest due on \$12,100.00 from Nov. 1st, 1868, to May 1st, 1869, of \$363, making \$2,363.00, which is expected to be met at that time from funds now in the Treasury.

There will be due Nov. 1st, 1869, the interest on the \$10,100.00 Bonds then outstanding, from May 1st, 1869, to Nov. 1st, 1869—\$303.00, together with the \$2,000.00 Bonds which mature May 1st, 1870, and the interest on \$10,000.00 Bonds from Nov. 1st, 1869, to May 1st, 1870—\$303, making \$2,303.00 to be provided for by assessment.

The Selectmen would, therefore, recommend the following sums to defray the expenses of the Town the ensuing year, viz :

District Schools, .....	\$2,200.00
Highways, .....	1,500.00
Support of Poor, .....	2,600.00
To meet the present indebtedness, .....	420.00
Town Debts, .....	3,000.00
Incidental Expenses, .....	1,000.00
	<hr/>
	\$10,720.00

All of which is most respectfully submitted,

SAMUEL ATWELL,	} <i>Selectmen of Duxbury.</i>
ELBRIDGE CHANDLER,	
THOMAS CHANDLER,	

FEB. 22, 1869.

The undersigned, being an Auditing Committee, chosen by the Town, March, 1868, have examined the above Accounts and find them correctly cast and properly vouched.

GEO. W. FORD,  
JOHN S. LORING.

# ANNUAL REPORT

OF THE

## SCHOOL COMMITTEE,

OF THE

## TOWN OF DUXBURY,

FOR THE

School Year 1868-9.

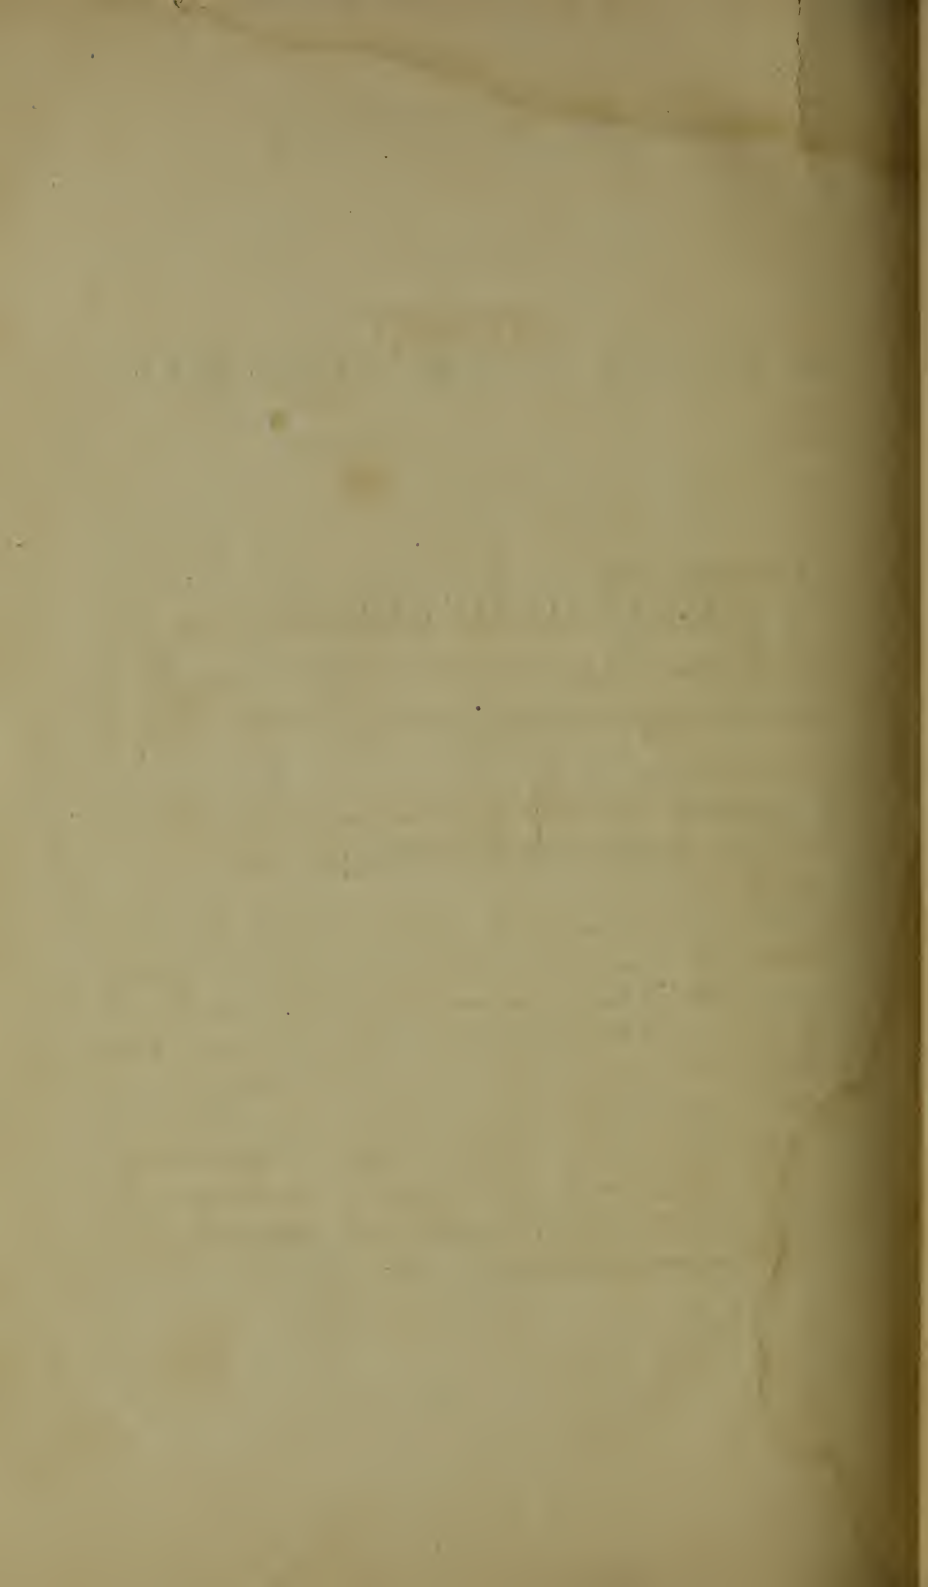

---

TO APRIL 30, 1869.

---

PLYMOUTH:

W. W. AVERY, BOOK AND JOB PRINTER,  
CORNER OF COURT AND NORTH STREETS,  
1869.

# REPORT.

---

FELLOW CITIZENS :

The School Committee, in compliance with the law of the State, make their annual report of the progress of our Public Schools for the past year, and their present condition :

During the year, the Schools have been conducted much after the old system, but we think, with some little improvement.

Owing to the scattered population of our Town, the Schools are necessarily so divided, that many of them are too small, both for the interest of the Scholar, and Teacher, whilst some few are crowded. This under the old District system, was of course unavoidable, and could not well be remedied by your Committee.

That system having now been abolished by act of Legislature, will throw the management of the Schools entirely upon the Committee, and, as a consequence, will much increase their labors.

But this change will enable them in some cases, to make improvements, and perhaps to better distribute the Scholars throughout the several Districts, and dispense with some small Schools.

Yet there are many difficulties in the way of a perfect system of arrangement, and we can see no way in which a radical change can be made, without incurring great expense. As under a different system the present School Houses would be nearly useless. The Town having instructed us to call the General District Committee together to consider the matter of Schools, and School Houses, they may be able to devise some good plan for the future, but we fear, that, until our Town awakes from its slumbers, and becomes what it was in its palmy days, that the schools like every thing else must move on the old beaten track.

We, however, are not of the number of those who would change our school system, for the sake of change merely, and of following the lead of more prosperous and populous Towns; for we think some of the so-called reforms rather retard than advance the cause of education.

There is still much good in the old system of our fathers, as then both parents and children were obliged to make many sacrifices, and much exertion, to gain a fair education, and therefore they made the most of what few advantages they had.

With all due respect to the memory of the great reformer in our school system, "Horace Mann," we think he was too far in advance of our generation, to accomplish the great good many suppose. But that the ten-

dency has been to induce parents to trust too much to the school system, and the central power.

Now, the impression seems to be, that 'tis only necessary to vote a good sum of money to sustain Schools, *or move the old School House*, and that the education will come as a matter of course. Parents do not (with exceptions of course,) see to it that their children attend School as they should do, but rather indulge them in their natural desire for amusement, fearing perhaps, that they may over tax their active brains.

We think that the five or six school hours per day for five days in the week, and no study outside, and very little severe application in the School House will never injure their constitutions, or advance them to the front rank in life.

Parents should first lay the foundation, by forming habits in their children of close attention to study, and, in after years with the assistance of the capable teachers we now have, a child will gain a good education, even in our Public Schools. We are induced to make these remarks, partly from noticing so many marks on our School Registers, for absence ; in most cases probably, with no good reason.

In regard to the Teachers of our Schools during the past year, we would say, that, with very few exceptions, they were competent and have done their work well ; many of them having graduated from our own High School, thus showing that we have means of education without going abroad.

## THE HIGH SCHOOL.

At the commencement of the year we made an arrangement with the Trustees of Partridge Academy, whereby that institution would supply the place of the High School required by law to be kept in Town, and by the payment of a nominal sum, the Town would be free to all scholars qualified to enter such a School.

We think that, so far, the arrangement has been of advantage to all concerned. No more central location could probably be found, and by this arrangement the Town saved quite a large sum of money, that they would otherwise have been obliged to raise, and the Committee were thus enabled to appropriate a little surplus in the Treasury to extend the other Public Schools, one month each.

We omit the usual roll of honor, as it is very difficult to discriminate impartially in many cases, and in some injustice may be done deserving Scholars by omission.

With these brief and feeble remarks we close.

J. S. LORING,	} School Committee.
JONA. S. FORD,	
J. P. BRADLEY,	

DUXBURY, April 30, 1869.
